General Rates Information:

The budget has been formulated with an increase of 3% on rate in the dollar for GRV (within town site) and 3% on rate revenue for UV properties. The UV valuations carried out by Landgate substantially increased the value of these properties (on average by 20.81%) which has had a bearing on the setting of rates. This has led to the rate increase being formulated off total revenue which will reduce the rate in the dollar.

Rising input costs required to maintain our main source of expenditure, being roads, and the increased pressure placed on the shires vast network of gravel roads (2167km) by an increase in the size of machinery and increased machinery movements have a big impact on the Shires ability to maintain the roads to a suitable standard that is demanded by the main users. Rate increases assist in provision of service delivery that meets reasonable community needs. It also ensures that critical infrastructure asset renewal is somewhat funded over the time frame of the Long Term Financial Plan.

The following general and minimum rates on Gross Rental and Unimproved Values has been imposed:

General Rates:

Gross Rental Value (GRV)	12.8967 cents in the dollar
Rural Unimproved Value (UV)	0.4995 cents in the dollar
