RECEIVED ON 13 APRIL 2022 AT 17:43PM PRIOR TO THE ANNUAL MEETING OF ELECTORS

April 13th, 2022

Are you happy to submit to the same rules that we have been living under if there's another pandemic?

The World Health Organization want Australia to sign up to another binding agreement to give 'them' sovereignty in such a situation. We have surrendered our freedoms of speech, assembly, mobility, religion, and bodily autonomy, for a cold. Because it has been engineered in a lab, it has dangerous features, but these are overcome with early treatment, some of which has been denied to Australians and none of it has been openly promoted by the Health Dept.

The only advantage I can see was the border closures which provided time for COVID19 to weaken before it invaded WA,. That would have occurred quicker without vaccination according to Geert vanden Bosshe, the epidemiologist I've been following since the pandemic began, and herd immunity would likely have been gained by now. Lockdowns haven't worked, social distancing hasn't worked, masks haven't worked and vaccinations don't prevent either transmission or disease.

Due to the lockdowns (and vaccination mandates and other factors), we are faced with supply issues, businesses are going under, people have lost employment and their homes and one and a half billion people are facing starvation. Food riots have begun in various overseas nations. In the last 18 days, three small children have died from vaccine injuries (see the TGA data) and sudden death is evidenced across the world. Unreported vaccine injuries are common knowledge in our own communities.

The mandates are falling but not fast enough. I request the Council seriously consider their stance to another situation like the one we've faced for the last two years. I believe this issue, like climate change, is about control, not the health of our nation or indeed the world. Please check out the World Economic Forum for an illustration of the agenda of world elites.

Thank you. Catherine Kelly Shire of Lake Grace

Ordinary Council Meeting

14.0 REPORTS OF OFFICERS

14.1 INFRASTRUCTURE SERVICES

14.1.1 SPEED LIMIT REDUCTION COLLIE LAKE KING ROAD (STUBBS STREET)

Applicant:	Manager Infrastructure Services
File No.:	ТВА
Attachments:	1) Letter from Roadwise Secretary
	2) Map of Area of Concern
Author:	cod
	Mr Craig Elefsen
	Manager Infrastructure Services
Disclosure of Interest:	Nil
Date of Report:	22/03/2022
Senior Officer:	Geng
	Mr Alan George
	Chief Executive Officer

<u>Summary</u>

For council to support the speed limit reduction on the Collie Lake King Road (Commonly known as Stubbs Street) from the current posted speed limit of 50kmph to a proposed speed limit of 40kmph between SLK 274.26 & SLK 274.71 (between Mather Street and Lawson Street in Lake Grace)

Background

During the November 2021 Roadwise meeting in the general business part of the meeting the issue of pedestrian safety on Stubbs street (Collie Lake King Road) was raised by concerned members of the public. As the shire is the overarching body of the community Roadwise has approached the Shire to contact Main Roads to see if the speed limit can be reduced in the area of concern.

<u>Comment</u>

On the 17th March 2022 the Shire received a letter from the Lake Grace Roadwise Secretary requesting the Shire to contact Main Roads WA to see if the speed limit could be lowered on a section of Stubbs Street Lake Grace. The Manager Infrastructure Services has since contacted Main Roads WA and they are seeking official Shire support/comment as the overarching representative of the community.

The Manager Infrastructure Services has inspected the area of concern and has deemed it necessary to expand the area initially mentioned by the Roadwise letter. Due to the increase in

pedestrians and vehicles in the mentioned area I believe it is the Shires best interest to support the speed limit reduction to improve the safety of all pedestrians and road users.

RESOLUTION 13551

Moved:	Cr Hunt
Seconded:	Cr Chappell

That Council:

- 1. Support the reduction of the current 50km per hour posted speed limit to 40km per hour between SLK 274.26 and SLK 274.71 Collie Lake King Road.
- 2. Authorise administration to provide Council's comment/s to Main Roads WA regarding this issue.

CARRIED: 9/0

14.2 PLANNING

14.2.1 DEVELOPMENT APPLICATION - PROPOSED SEA CONTAINER ON LOT 5 (NO.26) STUBBS STREET, LAKE GRACE

Applicant:	Mr Andrew Keays under authority from Mr Paul Wheeler & Ms Michelle Donegan (Landowners)
File No.:	TBA
Attachments:	Development Application - Documentation and Plans
Author:	Mr Joe Douglas – Town Planner
Disclosure of Interest:	Nil
Date of Report:	11 March 2022
Senior Officer:	Mr Alan George Chief Executive Officer

Summary

This report recommends that Council grant conditional approval to a development application received from Mr Andrew Keays under the authority of Mr Paul Wheeler and Ms Michelle Donegan (Landowners) to place a second-hand 20-foot-long sea container on Lot 5 (No.26) Stubbs Street, Lake Grace for incidental storage purposes.

Background

Mr Andrew Keavs has submitted a development application requesting Council's approval for the proposed placement of a second-hand 20-foot-long sea container at the rear of an existing approved commercial building on Lot 5 (No.26) Stubbs Street, Lake Grace for general storage purposes.

The existing commercial building on Lot 5 is currently being used for the purposes of a 'restaurant/cafe' and 'reception centre'. It is understood Mr Keays has secured a lease to operate the existing approved business on the land and requires some additional storage space in close proximity to the existing commercial building to support the approved business activities.

A full copy of the application received is provided in Attachment 1.

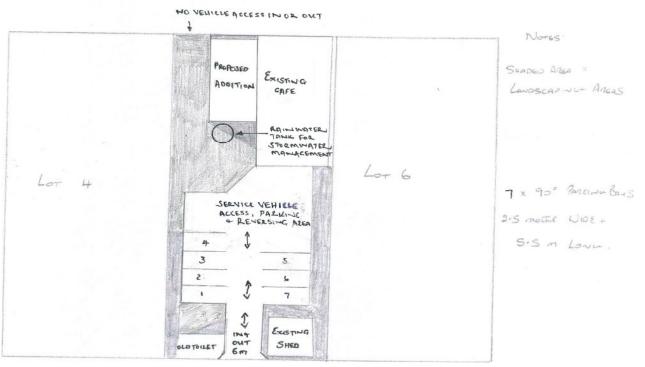

Lot 5 (No. 26) is located centrally in the Lake Grace townsite's designated commercial precinct and comprises a total site area of approximately 1,060m².

Lot 5 has direct frontage and access to Stubbs Street along its northern front boundary and a constructed right-of-way along its southern rear boundary. The property has historically been developed and used for both 'shop' and 'restaurant/cafe' purposes (i.e. Rosie's Cafe) and contains a single storey commercial building originally constructed in 1918 and two associated outbuildings at the rear.

Council should note that whilst the single storey commercial building on Lot 5 is included in the Shire's Heritage List due to it being identified and classified as a place of considerable cultural heritage significance, the proposed development, the subject of this report, will have no direct impact on the building or compromise its heritage character or value.

In December 2017, Council granted conditional development approval for the following:

- i) Construction of a new 72m² addition to the western side of the existing commercial building on Lot 5;
- ii) Use of the proposed new 72m² addition for the purposes of an expanded 'restaurant / cafe';
- iii) Use of the entire premises, including the proposed addition, for the purposes of a 'reception centre';
- iv) Construction of a new vehicle access and parking area at the rear of the property with direct access to/from an existing constructed right-of-way along the land's rear boundary;
- v) The installation of new guttering on the existing building and proposed addition and a rainwater storage tank of sufficient capacity at the rear of the addition to capture, store and provide for the re-use of all storm water collected from the roof catchment;
- vi) The provision of landscaping in select locations including the retention of all existing eucalypt trees at the rear of the property with the exception of one smaller sized tree that has been subject to previous lopping works and required removal to provide safe and convenient vehicle access via the adjoining right-of-way; and
- vii) Removal of an existing corrugated iron storage shed at the rear of the property for vehicle safety purposes (i.e. improved sight lines for vehicles exiting Lot 5).

Council Approved Site Development Plan (December 2017)

It is noted Lot 5 has not been developed in accordance with the previous development approval granted by Council in December 2017, with a number of proposed improvements yet to be completed (e.g. vehicle access and parking, stormwater drainage, landscaping and removal of old shed). As this is a compliance related matter, Council cannot withhold any further development approvals due to this non-compliance or impose further conditions requiring the land to be developed in accordance Page | 14

with any previous approvals granted. The onus is on the current landowners to comply with all previous approvals, with the Shire responsible for compliance and enforcement if the works are not completed as required.

Comment

Lot 5 is classified 'Commercial' zone under the Shire of Lake Grace Local Planning Scheme No.4 (LPS4).

Under the terms of LPS4 the use class 'restaurant / cafe' is listed as being a permitted (i.e. 'P') use on any land classified 'Commercial' zone. The use class 'reception centre' is listed as being a discretionary (i.e. 'D') use on any land classified 'Commercial' zone, with Council having previously granted development approval to use Lot 5 for this purpose.

As the proposed sea container will be incidental to and support the current permitted and approved use of Lot 5 for 'restaurant / cafe' and 'reception centre' purposes, Council has sufficient discretion to grant development approval in this particular instance, if it satisfied the proposed development meets the objectives, standards and requirements of the Shire's local planning framework.

The application has been assessed with due regard for all relevant objectives, standards and requirements prescribed in LPS4, clause 67 of the Deemed Provisions of the *Planning and Development (Local Planning Scheme) Regulations 2015* and Council's policy manual. This assessment has confirmed the proposal is compliant, or capable of compliance, with the following requirements:

- Land use compatibility;
- Siting, design and lot boundary setbacks;
- Maximum permitted building height;
- Environmental protection and conservation;
- Visual character and amenity;
- Heritage conservation and protection;
- Vehicle access, parking, loading / unloading; and
- Stormwater drainage and bushfire risk management.

To ensure the proposed sea container does not have a detrimental impact on the visual amenity of the immediate locality when viewed from the public realm, it is recommended Council impose a condition on any development approval that may ultimately be granted requiring the applicant to paint the western and southern walls of the sea container in a colour that matches or complements the external appearance of the existing commercial building on the property.

It is also recommended Council impose a condition requiring all stormwater drainage from the proposed sea container to be managed and disposed of on-site in a manner that does not compromise the integrity of any existing improvements on the land or the sea container itself. In light of all of the above, it is concluded the proposal for Lot 5 (No.26) Stubbs Street, Lake Grace is unlikely to have a negative impact on the general amenity, character, functionality and safety of the immediate locality and may therefore be supported and approved by Council subject to the imposition of a number of conditions to ensure the development proceeds in a proper and orderly

manner. As such, it is recommended Council exercise its discretion and grant conditional development approval.

Legal Implications

- Planning and Development Act 2005
- Planning and Development (Local Planning Schemes) Regulations 2015
- Shire of Lake Grace Local Planning Scheme No.4

Policy Implications

Nil

Consultation

Not required or deemed necessary.

Financial Implications

There are no known financial implications in relation to this item aside from the administrative costs associated with processing the application which are provided for in Council's annual budget and have been partially offset by the development application fee paid by the applicant. All costs associated with the proposed development will be met by the applicant.

It is significant to note should the applicant / landowners be aggrieved by Council's final decision in this matter, they have the right seek a formal review of that decision by the State Administrative Tribunal. Should this occur for whatever reason, which is considered highly unlikely in this particular instance, the Shire would need to respond. The cost to respond to an appeal cannot be determined at this preliminary stage but could be expected, based on the recent experience of other local government authorities in Western Australia, to range anywhere from \$5,000 to \$60,000 excluding GST depending upon how far the matter proceeds through the review process.

Strategic Implications

The proposed development is consistent with the following strategic planning documents:

- Shire of Lake Grace Local Planning Strategy 2007 as it applies to supporting business development and growth and improving the general appearance, character and amenity of the Shire's main settlements; and
- Shire of Lake Grace Strategic Community Plan 2017-2027:

Economic Objective		A prosperous agricultural-based economy, supporting diversification of industry
Outcome	1.2.2	Support local business and promote further investment in the district.
Environment Objective		Protect and enhance our natural and built environment
Outcome	3.1.1	Maintain the integrity of heritage buildings and places

Voting Requirements

Simple majority required.

RESOLUTION 13552

Moved: Cr Chappell Seconded: Cr Hyde

That the development application submitted by Mr Andrew Keays to place a second-hand 20-footlong sea container on Lot 5 (No.26) Stubbs Street, Lake Grace for incidental storage purposes associated with the current approved uses on the land be **approved** subject to the following conditions and advice notes:

Conditions:

- 1. The proposed development shall be undertaken strictly in accordance with the information and plans submitted in support of the application subject to any modifications required as a consequence of any condition/s of this approval or otherwise approved by Council.
- 2. Any additional development which is not in accordance with the application the subject of this approval or any condition of approval will require the further approval of Council.
- 3. The proposed development shall be substantially commenced within a period of two (2) years from the date of this approval. If the development is not substantially commenced within this period this approval shall lapse and be of no further effect. Where an approval has so lapsed, the proposed development shall not be carried out without the further approval of Council having first being sought and obtained.
- 4. The western, northern and southern facing walls of the proposed sea container shall be painted in a colour that matches or complements the external appearance of the existing commercial building on the property within ninety (90) days of the date of this approval unless otherwise approved by the Shire's Chief Executive Officer.
- 5. All stormwater drainage from the proposed sea container shall be contained and disposed of on-site in a manner that does not compromise the integrity of any existing improvements on the land or the sea container itself.
- 6. The proposed sea container shall only be used for incidental storage purposes associated with the current approved uses on the land unless otherwise approved by Council.

Advice Notes:

- This approval is not an authority to ignore any constraint to development on the land which may exist through contract or on title, such as an easement, memorial or restrictive covenant. It is the responsibility of the applicant and landowner and not the Shire to investigate any such constraints before commencing development. This approval will not necessarily have regard to any such constraint to development, regardless of whether or not it has been drawn to the Shire's attention.
- 2. This is a development approval of the Shire of Lake Grace under its Local Planning Scheme No.4. It is not a building permit or an approval to commence or carry out development under any other law. It is the responsibility of the applicant/landowner to obtain any other necessary approvals, consents, permits and licenses required under any other law, and to commence and carry out development in accordance with all relevant laws.
- 3. The applicant is reminded of their obligation to ensure compliance with the following requirements:
- i) The Shire of Lake Grace Annual Fire Management Notice as it applies specifically to all townsite land in the Shire to help guard against any potential bushfire risk

https://www.lakegrace.wa.gov.au/services/bushfire-emergency-management/fire-managementrequirements.aspx); and

- ii) The terms and conditions of the development approval granted for the land in December 2017 as it applies to the maximum number of people permitted to be accommodated within the commercial building, heavy vehicle access, parking and loading/unloading, waste management and disposal, and the screening of any open storage and/or drying areas.
- 4. In accordance with the *Building Act 2011* and *Building Regulations 2012*, a building permit application must be submitted to and approved by the Shire's Building Surveyor prior to the commencement of any earthworks or placement of the proposed sea container on the land.
- 5. The proposed development is required to comply in all respects with the National Construction Code of Australia. Plans and specifications which reflect these requirements are required to be submitted with the building permit application.
- 6. Failure to comply with any of the conditions of this development approval constitutes an offence under the provisions of the *Planning and Development Act 2005* and the Shire of Lake Grace Local Planning Scheme No.4 and may result in legal action being initiated by the local government.
- If the applicant / landowners are aggrieved by this determination there is a right of review by the State Administrative Tribunal in accordance with the Planning and Development Act 2005 Part 14. An application must be submitted directly to the State Administrative Tribunal within 28 days of the determination.

CARRIED: 9/0

Cr Hunt asked as to what happened to the original development conditions that were imposed on the former owners, whether or not they have been done:

Reply from the CEO was, now that the Shire's Planner Joe Douglas is back, this will be looked at by the administration.

For Council to confirm the change of term of the General Practice Agreement with Drs Olowu and Omoniyi (Olkowu and Omoniyi Pty Ltd).

Background/Comment

The General Practice Agreement with the doctors expired on 28 February 2022. Administration and Councillors entered into discussions with the doctors for the renewal of the contract and as a result at the 16 February 2022 Ordinary Council meeting, it was resolved to offer a three (3) year contract extension to expire 28 February 2025.

The doctors have subsequently come back and advised that a 2-year contract under the approved conditions is now what they want. All councillors were contacted and all confirmed agreeance to the change of term of the contract.

This item is to confirm the prior approval by the Councillors. Legal Implications

The new General Practice Agreement has been executed by all parties.

Policy Implications

Nil

Consultation

All Councillors of the Shire of Lake Grace.

Financial Implications

No change to the contract price.

14.4.2 BUSHFIRE RISK MANAGEMENT PLAN 2022-2027 - DRAFT

Applicant:	Chief Executive Officer	
File No.:	0159	
Attachments:	 All the working copies of the following documents: Shire of Lake Grace BRM Plan BRM Plan – Communication Strategy BRM Plan – Local Government Wide Controls 	
Author:	Mr Alan George Chief Executive Officer	
Disclosure of Interest:	Nil	
Date of Report:	16 March 2022	
Senior Officer:	Mr Alan George Chief Executive Officer	

<u>Summary</u>

For Council to review and comment on the <u>Draft</u> Shire of Lake Grace Bushfire Risk Management Plan 2022-2027

Background

The Bushfire Risk Management Planning (BRMP) program is a state-wide government initiative in WA that has been established to assist in the mitigation of bushfire risk. The program supports Local Governments in developing and implementing whole of Shire, tenure-blind Bushfire Risk Management Plans (BRM Plans) so that community assets are identified, risks are assessed and appropriate mitigation activities are assigned.

To support Local Government in undertaking the identified mitigation activities, the Western Australia government has established the Mitigation Activity Fund Grants Program (MAFGP) to treat extreme, very high or high bushfire risks.

The Mitigation Activity Fund Grants Program is restricted to eligible Local Governments only.

Eligible local governments are those that have an Office of Bushfire Risk Management (OBRM) endorsed Bushfire Risk Management Plan (Please note that OBRM must be given a minimum of four weeks to endorse a plan).

<u>Comment</u>

The draft document has been prepared by the Bushfire risk Management Coordinator based at the Shire of Narrogin and is attached for comment from Council. Comment will also be sought from Page | 21

CBFCO, BFAC and CESM and interested parties prior to being finalised and adopted by Council prior to being forwarded to the OBRM for endorsement.

Please note that this is only a <u>draft</u> and some minor wording requires attention, however, the gist of the document is there.

Legal Implications

The following Acts and Legislation apply:

- Aboriginal Heritage Act 1972
- Building Act 2011
- Bush Fires Act 1954
- Bush Fires Regulations 1954
- Conservation and Land Management Act 1984
- Country Areas Water Supply Act 1947
- Emergency Management Act 2005
- Emergency Management Regulations 2006
- Environmental Protection Act 1986
- Environmental Protection and Biodiversity Conservation Act 1999
- Fire and Emergency Service Act 1998
- Fire Brigades Act 1942
- Metropolitan Water Supply, Sewerage and Drainage Act 1909
- Planning and Development (Local Planning Scheme) Regulations 2015
- Wildlife Conservation Act 1950

Policy Implications

Shire of Lake Grace Fire Management Notice 2021/2022 State Planning Policy 3.7 – Planning for Bushfire Prone Areas Numerous other State Policies

Consultation

Department of Fire and Emergency Services Shire of Lake Grace Community Emergency Services Manager Shire of Lake Grace Bushfire Advisory Committee Chief Bushfire Control Officer

Financial Implications

There is funding available annually through the Mitigation Activity funding (MAF) However, it must be noted that the funding available is for the initial treatment only to reduce the fire risk and thereafter it will be the responsibility of the Shire for the ongoing maintenance of the firebreaks.

Further funding may be sourced after initial works have been completed. Bushfire can pose a serious risk to communities and the receipt of mitigation funding will help offset ongoing costs and treatments into the future.

Strategic Implications

Shire of Lake Grace Strate	egic Cor	nmunity Plan 2017-2027	
Economic Objective		A prosperous agricultural based economy, supporting diversification of industry	
Outcome	1.1	An innovative, productive agriculture industry	
	1.1.1	Enhance and maintain transport network	
	1.1.3	Support and promote the agricultural productivity of the district	
	1.1.5	Liaise with key stakeholders for the improvement of the agricultural industry	
Environment Objective		Protect and enhance our natural and built environment	
Outcome	3.1	A well maintained attractive built environment servicing the needs of the community	
	3.1.1	Maintain, rationalise, improve or renew buildings and community infrastructure	
	3.1.2	Maintain the integrity of heritage buildings and places	
Outcome	3.2	A natural environment for the benefit and enjoyment of current and future generations	
	3.2.1	Manage and preserve the natural environment	
	3.2.2	Support pest and weed control within the district	
Social Objective		A valued, healthy and inclusive community and life-style	
Outcome	2.2	A health and safe community	
	2.2.3	Support provision of emergency serviced and encourage community volunteers

14.4.3 ACCESS AGREEMENT TO WILLIAMS LOCATION 10224

Applicant:	Chief Executive Officer
File No.:	0159
Attachments:	Agreement to Williams Location and Plan Location 10224 – Lake Grace Kulin Road
Author:	Geng
	Mr Alan George
	Chief Executive Officer
Disclosure of Interest:	Nil
Date of Report:	16 March 2022
Senior Officer:	Ang
	Mr Alan George Chief Executive Officer

Summary

For Council to **approve** the fixing of the Shire of Lake Grace Common Seal to an access agreement to portion of Williams Location 10224 with the owners Morris and Vicki Smith for the purpose of access to water.

Background

Vesting of Reserve 18067 on which North Lake Grace Dam is located was transferred from the Water Corporation to the Shire of Lake Grace in 2021.

Comment

Administration has been working with DWER for several years in order to increase dam water supplies for drought mitigation purposes.

Last year, the federal government announced the National Water Grid Connections Fund to help identify and improve water storage and drought mitigation processes. The State government followed this up with some additional funding. DWER identified North Lake Grace Dam as a project and are in the process of gaining approval for funding to install a tank, standpipe and pipeline from the dam to a suitable area. The area for the tank will be located on the reserve to the west of the dam in an old gravel pit area. Access to the tank and standpipe will be through land owned by the Smiths and there are already access roads in place which will require some minor grading to bring up to standard.

This agreement is to formalise the access to the land with the owners and set out the conditions of the access.

Legal Implications

The Smiths have requested that the condition be put into the agreement that they will **not be liable** for any incident/accidents on any part of their property whilst being accessed for water. Local Government Act 1995 section 9.49(A)

Policy Implications

Policy

Policy 1.1 Use of the Common Seal

- The Common Seal of the Shire of Lake Grace is to be affixed to the following documents:
 - Deed of agreement
 - Senior Officer Contracts of Employment
 - Land transactions (including leases)
 - Other documents requesting use of the common seal

A document is validly executed by the Shire of Lake Grace when the seal of the Shire is affixed to it by the President and the Chief Executive Officer, and the President and Chief Executive Officer attest the fixing of the seal.

All documents signed under seal must, in accordance with s9.49 of the Act, first be presented to Council for its authorisation of the seal to be affixed to it by the President and the Chief Executive Officer, and the President and Chief Executive Officer attesting the fixing of the seal.

Objective To validate the procedure for the executive of legal documents.

Consultation

External Department of Water and Environmental Regulation – Rural Water Planning Landowners M L and V N Smith

Internal Mr Craig Elefsen - Manager Infrastructure Services

Financial Implications

Initial works will be funded by the National Water Grid Connections Fund.

The Shire of Lake Grace will be liable for future maintenance from time to time as needed.

Strategic Implications

Shire of Lake Grace Strategic Community Plan 2017-2027

Economic Objective		A prosperous agricultural based economy, supporting
-		diversification of industry
Outcome	1.1	An innovative, productive agriculture industry
	1.1.3	Support and promote the agricultural productivity of the district
	1.1.4	Maintain and provide water infrastructure and lobby to support drought-proofing and water-harvesting initiatives
	1.1.5	Liaise with key stakeholders for the improvement of the agricultural industry

Voting Requirements

Simple majority required.

RESOLUTION 13554

Moved: Cr Chappell Seconded: Cr McKenzie

That Council approves the fixing of the Shire of Lake Grace Common Seal to the Access Agreement between M L and V N Smith and the Shire of Lake Grace for portion of Williams Location 10224.

	Mr Chris Paget
	Deputy Chief Executive Officer
Disclosure of Interest:	Nil
Date of Report:	16 March 2022
Senior Officer:	Cong
	Mr Alan George
	Chief Executive Officer

<u>Summary</u>

The purpose of this report is for the Council to consider the review of the Local Emergency Management Arrangements and the associated recommendation from the 10 February 2022 Shire of Lake Grace LEMC meeting.

Background

Under the *Emergency Management Act* 2005 ('the EM Act'), local governments are required to have local emergency management arrangements. Local governments are the closest level of government to their communities and have access to specialised knowledge about the local environment and demographic features of their communities. Effective local emergency management arrangements enhance the community's resilience and preparedness for emergencies through strategies that apply prevention/mitigation, preparedness, response and recovery measures.

In addition to ensuring that effective local emergency management arrangements are prepared and maintained and managing recovery following an emergency in its district, each local government is required to establish and maintain a local emergency management committee (LEMC). The functions of the Shire of Lake Grace LEMC are documented in the EM Act under section 39:

- a) to advise and assist the local government in ensuring that the local emergency management arrangements are established for its districts;
- b) to liaise with public authorities and other persons in the development, review and testing of local emergency management arrangements; and
- c) to carry out other emergency management activities as directed by the SEMC or prescribed by the regulations.

<u>Comment</u>

The minutes of the 10 February 2022 LEMC meeting are attached with a recommendation to Council to endorse the Local Emergency Management Arrangements (LEMA) and associated plans for the Shire of Lake Grace.

In accordance with relevant legislation the plans have been reviewed by the LEMC and this report seeks Council's endorsement. Adoption of the plans will ensure the Shire remains compliant with legislative responsibilities in accordance with the EM Act 2005 and relevant State Emergency Management plans and policies.

Once adopted by Council, the LEMA document must be submitted to the State Emergency Management Committee (SEMC) via the District EMC in order to complete the approval process.

Statutory Environment

Emergency Management Act 2005 sections 41 to 43.

Policy Implications

Nil

Financial Implications

Nil

Risk Implications

The risks associated with matters in this report are:

- Failure to fulfil statutory, regulatory or compliance requirements
- Inadequate document management processes
- Inadequate engagement practices

Risk mitigation includes the well managed operations of the LEMC and ensuring all relevant plans are current and reviewed as required.

14.5.3 FINANCIAL REPORTS – 31 JANUARY 2022

Applicant:	Internal Report
File No.	0275
Attachments:	Monthly Financial Reports
	 Bank Reconciliations – January 2022
Author:	Br
	Mrs Victoria Fasano
	Finance Officer – Reporting and Investments
Disclosure of Interest	Nil
Date of Report	16 March 2022
Senior Officer	Cling
	Mr Alan George
	Chief Executive Officer

<u>Summary</u>

Consideration of the Monthly Financial Reports for the period ending 31 January 2022 and Bank Reconciliations for the month ending 31 January 2022.

Background

The provisions of the Local Government Act 1995 and associated Regulations require a monthly financial report is presented at an Ordinary Council meeting within two (2) months of the period end date.

<u>Comment</u>

As at 31 January 2022, operating revenue over target by \$52,562 (0.84%) mostly due to Rates and Operating grants received earlier than budgeted. Interest earnings below target due to low interest rates. Fees and Charges are below budget as well along with other revenue.

Operating expenditure is under YTD budget by \$1,123,072 (17.61%) mainly due to Materials and contracts, employee and overhead costs down along with utility charges. Insurance and depreciation expenses on the other hand are slightly over the budget target.

The capital program is below the target by \$1,828,877. Capital grants and contributions are down due to some of Local Roads & Community and Drought & Community projects are not yet initiated/finalised, funds will be recognised later in financial year. Payments for property, plant and equipment are below target as well due to slow-down in capital projects. This leads to Capital grants income decrease being offset by the reduction in payments for property, plant and equipment.

Cash at bank is similar to the corresponding period last year, an investment agreement for 3 term deposits with Bankwest is in place (total of \$9,502,735).

Outstanding rates is tracking well and have recovered 94.6% to date.

General debtor is \$61,680 with no major outstanding debts to follow up.

The monthly financial reports include the accompanying Local Government special purpose financial statements for the Shire of Lake Grace, which comprises the Statement of Financial Activity (by Statutory Reporting Program), a summary of significant accounting policies and other explanatory notes for the period ending 31 January 2022. The financial statements have been compiled to meet compliance with the Local Government Act 1995 and associated regulations.

The Shire of Lake Grace is responsible for the information contained in the financial statements and is responsible for maintenance of an appropriate accounting system in accordance with relevant legislation.

Legal Implications

Section 6.4 of the Local Governments Act 1995 provides for the preparation of financial reports.

In accordance with Regulation 34(5), a report on variances greater than the materiality threshold (\$5,000 or 10% whichever is greater) must be compiled and adopted by Council. As this report is composed at a program level, variance commentary considers the most significant items that comprise the variance.

SHIRE OF LAKE GRACE

Minutes of the Special Meeting of Council held at Council Chambers, 1 Bishop Street, Lake Grace, WA 6353 on 24 March 2022 at 11:00am.

1.0 DECLARATION OF OPENING/ANNOUNCEMENT OF VISITORS

The Shire President opened the meeting at 11:01 am and advised that today's special meeting has been convened to consider the following matters:

- 2020/2021 Shire of Lake Grace Annual Financial Report and Auditors Report
- 2021 Annual General Meeting of Electors
- Shire of Lake Grace Compliance Audit Return 2021

2.0 DISCLAIMER READING

No responsibility whatsoever is implied or accepted by the Shire of Lake Grace for any act, omission or statement or intimation occurring during Council and Committee meetings or during formal and informal conversations with staff. The Shire of Lake Grace disclaims any liability for any loss whatsoever caused arising out of reliance by any person or legal entity on any such act, omission or statement or intimation occurring during Council and Committee meetings or discussions. Any person or legal entity who acts or fails to act in reliance upon any statement does so at that person's and or legal entity's own risk.

In particular and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning application or application for license, any statement or limitation or approval made by a member or officer of the Shire of Lake Grace during the course of any meeting is not intended to be and is not taken as notice of approval from the Shire of Lake Grace. The Shire of Lake Grace warns that anyone who has an application lodged with the Shire of Lake Grace must obtain and only should rely on WRITTEN CONFIRMATION of the outcome of the application and any conditions attaching to the decision made by the Shire of Lake Grace in respect of the application.

Acknowledgement of Country to be read by the Shire President

I begin today by acknowledging the Ballardong people, Traditional Custodians of the land on which we meet today, and pay my respects to their Elders past, present and emerging. I extend that respect to Aboriginal and Torres Strait Islander peoples here today.

<u>Summary</u>

The purpose of this item is for Council to receive and consider the Audit Committee recommendation to accept the Annual Report for the year ended 30 June 2021.

Background

The draft Annual Financial Report for the year ended 30 June 2021 was presented to the Shire of Lake Grace's auditor AMD on 27 August 2021. The auditors undertook the annual site visit to Lake Grace between 4 and 5 October, with follow up work completed electronically and meetings at their offices in Bunbury throughout November and early December. Following significant delays from the Office of the Auditor General, the exit meeting was held on 17 February 2022 with the audit opinion finally being signed off on 18 March 2022.

Section 5.54 of the *Local Government Act 1995 'Acceptance of Annual Reports'* requires an Annual Financial Statement to be accepted by Council by 31 December in each year, unless the Auditors Report is not available in time. The *Local Government Act 1995* Section 5.54(2) requires that if the Annual Report is not accepted by the Local Government by 31 December, then it must be presented within two (2) months of the Auditors report becoming available.

As per usual practice it is intended that the advertisement advising of the Annual Electors Meeting and the availability of the 2020/21 Annual Report will be placed in the *Lakes Link* and *Gatepost*, as well as the West Australian newspaper. Notices will be also placed on our notice boards and the Shire's website and Facebook page.

Comment

The completion of the audit report confirms all figures for the 2020/21 year including the carried forward position as at 30 June 2021.

The audit management report has made three moderate findings and recommendations as detailed below:

- 12 instances of minor purchasing transactions did not have documented evidence of quotations being sought – management will refine existing procedures to ensure all staff follow and document purchasing processes.
- 2 instances of purchase orders being raised after supplier invoices were received as above, existing procedures will be updated and implemented with staff educated accordingly.
- The Shire does not currently have an approved IT Disaster Recovery Plan in place, and backups of the IT system are not stored off site – development of the Shire's plan is currently underway (including offsite storage), and anticipate presentation to Council by end April 2022.
- Two other matters relating to IT Usage and Related Party Disclosures policies had already been adopted by Council and implemented in June and October 2021 respectively.

It is pleasing to note the significant matter raised in the 2020 financial year audit that the Shire's asset renewal ratio (ARR) being below the Department of Local Government, Sport and Cultural Industries standard for two financial years (0.33 whereas the Department standard is between 0.75 and 0.95) is now rectified. For the 2021 year the ARR was 0.96 which exceeds the DLGSC standard range – this is largely attributed to the very significant capital works program the Shire is undertaking with Commonwealth funding for the Drought Communities Program and the Regional & Local Community Infrastructure Program.

Statutory Implications

Local Government Act 1995

Section 5.53 Annual Reports;

- (1) The local government is to prepare an annual report for each financial year.
- (2) The annual report is to contain
 - (a) a report from the mayor or president; and
 - (b) a report from the CEO; and
 - [(c), (d) deleted]
 - (e) an overview of the plan for the future of the district made in accordance with section 5.56, including major initiatives that are proposed to commence or to continue in the next financial year; and
 - (f) the financial report for the financial year; and
 - (g) such information as may be prescribed in relation to the payments made to employees; and
 - (h) the auditor's report prepared under section 7.9(1) or 7.12AD (1) for the financial year; and
 - (ha)a matter on which a report must be made under section 29(2) of the Disability Services Act 1993; and
 - (hb)details of entries made under section 5.121 during the financial year in the register of complaints, including
 - (i) the number of complaints recorded in the register of complaints; and
 - (ii) how the recorded complaints were dealt with; and
 - (iii) any other details that the regulations may require;
 - and
- (i) such other information as may be prescribed.

Section 5.54 Acceptance of Annual Reports;

- (1) Subject to subsection (2), the annual report for a financial year is to be accepted* by the local government no later than 31 December after that financial year.
 - * Absolute majority required.
- (2) If the auditor's report is not available in time for the annual report for a financial year to be accepted by 31 December after that financial year, the annual report is to be accepted by the local government no later than 2 months after the auditor's report becomes available.

Section 5.55 Notice of Annual Reports;

The CEO is to give local public notice of the availability of the annual report as soon as practicable after the report has been accepted by the local government.

Section 5.55A. Publication of Annual Reports;

The CEO is to publish the annual report on the local government's official website within 14 days after the report has been accepted by the local government.

10.2 ANNUAL GENERAL MEETING OF ELECTORS

Applicant:	Internal Report
File No.	Nil
Attachments:	Nil
Author:	Mr Chris Paget
	Deputy Chief Executive Officer
Disclosure of Interest	Nil
Date of Report	22 March 2022
Senior Officer	Ang Mr Alan George
	Chief Executive Officer

<u>Summary</u>

For Council to consider and endorse the date for the Annual General Meeting of Electors.

Background / Comment

In accordance with section 5.27 of the *Local Government* Act 1995 the Annual Electors' General Meeting is to be held within 56 days of the local government accepting the annual report for the previous financial year. A requirement of setting the date is that 14 days local public notice is required for advertising the meeting. Providing the annual report is endorsed at the Special Council meeting held on Thursday 24 March 2022, it is recommended that this be held at 6.30pm Wednesday 13 April 2022 at the Lake King Pavilion. It is intended that public notice will be published in the local community newsletters and *The West Australian* newspaper; this advice will also be placed on our Notice Boards and the Shire of Lake Grace website and Facebook page.

Statutory Implications

Local Government Act 1995 Section 5.27 - Electors' General Meetings

(1) A general meeting of the electors of a district is to be held once every financial year.

(2) A general meeting is to be held on a day selected by the local government but not more than

56 days after the local government accepts the annual report for the previous financial year.

(3) The matters to be discussed at general electors' meetings are to be those prescribed.

Local Government (Administration) Regulation No. 15

Matters for discussion at general electors' meetings (Act s.5.27(3))

For the purposes of section 5.27(3), the matters to be discussed at a general electors' meeting are, firstly, the contents of the annual report for the previous financial year and then any other general business.

Local Government Act 1995 Section 5.29 - Convening Electors' Meetings

(1) The CEO is to convene an electors' meeting by giving —

(a) at least 14 days' local public notice;

(b) each council member at least 14 days' notice, of the date, time, place and purpose of the meeting.

(2) The local public notice referred to in subsection (1)(a) is to be treated as having commenced at the time of publication of the notice under section 1.7(1)(a) and is to continue by way of exhibition under section 1.7(1)(b) and (c) until the meeting has been held.

10.3 SHIRE OF LAKE GRACE COMPLIANCE AUDIT RETURN 2021

Applicant:	Internal Report
File No.	0528
Attachments:	Completed 2021 Compliance Audit Return
Author:	
	Mr Chris Paget Deputy Chief Executive Officer
Disclosure of Interest	Nil
Date of Report	21 March 2022
Senior Officer	Reng
	Mr Alan George Chief Executive Officer

<u>Summary</u>

The purpose of this report is for Council to consider the Audit Committee recommendation to adopt the statutory Local Government Compliance Audit Return (CAR) for the year ending 31 December 2021.

Background

Under the Local Government (Audit) Regulations 1996, a Local Government is required to carry out a Compliance Audit for the period 1 January 2021 to 31 December 2021. Once received and endorsed by Council, the certified return then needs to be submitted to the Director General, Department of Local Government, Sports and Cultural Industries by 31 March 2022.

The Compliance Audit Return must be:

- 1. reviewed by the Audit Committee;
- 2. presented to Council at a meeting of the Council;
- 3. adopted by the Council and certified by the President and CEO, then
- 4. recorded in the minutes of the meeting at which it is adopted.

The Compliance Audit Return is intended to assist Council in monitoring its organisational functions and provides an additional element of accountability through a check on internal management systems, procedures and record keeping. This in turn demonstrates the Shire's emphasis on improving its good governance, compliance, and best practice methods. Council is required to note any areas of non-compliance and endorse remedial action. The Audit is provided by the Department of Local Government through their secure website platform named Smart Hub, and is required to be completed by every local government in Western Australia.

<u>Comment</u>

The Shire's Audit Committee met prior to this meeting on Thursday 24 March 2022 to review the CAR along with this report in order to recommend its adoption by Council.

There were four items of non-compliance noted out of the total 98 items (9 of these being optional disclosures) included in the Shire of Lake Grace 2021 CAR, and this equates to an achievement rate of 95.92% which is <u>better</u> than the 2020 result of 91.18%.

Additionally, one question in the Finance topic section was answered as 'no' for non-compliance: page 7 No.3 LG Act s7.9(1) *Was the auditor's report for the financial year ended 30 June 2021 received by the local government by 31 December 2021?* This occurred due to no fault of the Shire and has not been counted as our non-compliance, as the Office of the Auditor General wrote to the Shire President on 23 December stating our audit would be delayed due to their workloads and COVID-19 measures resulting in significant labour shortages for the audit profession.

The non-compliant matters identified for each CAR topic area are as follows:

Delegation of Power/Duty

(Page 2 No.13) LG Act s5.46(2): Whilst a full review of the delegations register was undertaken and accepted by Council in December 2021, this was not within the 2020/2021 financial year as specified in the CAR question.

Integrated Planning and Reporting

(Page 8 No.1) Admin Reg 19C: The Shire of Lake Grace Strategic Community Plan was adopted by absolute majority of Council on 28 June 2017 and thus was due for major review in 2021; this did not occur within that calendar year.

Tenders for Providing Goods and Services

(Page 11 No.1) F&G Reg 11A(1) and (3): The annual financial audit identified 12 instances of minor purchasing transactions that did not have documented evidence of verbal or written quotations being sought in line with Council's purchasing policy.

(Page 11 No.7) F&G Reg 17: Whilst the tender register was available for public inspection at the Shire office, it was not published on the Shire website.

Statutory / Legal Implications

Local Government Act 1995 section 7.13(i) Local Government (Administration) Regulations 1996 - Regs 13, 14 & 15 Local Government (Audit) Regulations 1996 Local Government (Elections) Regulations 1997 Local Government (Functions and General) Regulations 1996 Local Government (Rules of Conduct) Regulations 2007

5.0 MEMBERS REPORTS

5.1 LAKE GRACE LIBRARY REPORT

Book exchange and VDX are all up to date.

I am still on trial with our new library system, Oliverv5. I am hoping to be connected to the new system in the near future, our Deputy Principal has left and now Principal Jedda Trueman is going to contact SoftLink. I had two hour Webex online training yesterday, Tuesday, and was the only one not live/using Oliver v5 and the only school to have only one person learning.

I have got a new shelf for Graphic novels. These novels are very popular and great for the children that struggle with reading.

Side student Neha Dwarakanath is back using the Library office to do her Year 12 studies..

Statistics since the last report:

December 21	Issues & Renewals	143	Borrower	Visits	129
January 22	Issues & Renewals	168	"	"	46
February 22	Issues & Renewals	604	"	"	293

5.2 LAKE GRACE COMMUNITY RESOURCE CENTRE REPORT

Like most local businesses we have been run off our feet. The Harvest Festival went well at the end of the year, wonderful to get funding from Lotterywest for this event. We're back into producing the Lakes Link.

Staffing has been up and down, Elizabeth Castaldini has just started with us which will be of huge benefit, she will work on the opposite days of Leanne Young.

We hosted a Farm Safety workshop with Rural Edge last month which was well attended; we are currently hosting forklift training and assessment. Next week we have a run of HR training and assessments and the following week we have HC and MC training and assessments. These have all been well supported.

All is going steadily with our partnerships:

- Trees have been ordered for the Bushcare project with the LCDC and the first of the project reports has been submitted.
- Men's Shed were successful in accessing funding from FRRR for their shed extension; we're currently on the lookout for more funding to help with the project. The shed has been ordered. Have also applied for another grant for more equipment.
- Roadwise had the Driver Reviver open for Christmas, sixteen volunteers kept the van open for 32 hours with 108 motorists stopping in We will definitely look at having it open a week prior to Christmas again. We haven't yet had a Roadwise meeting this year, need to have it in the next few weeks.
- Community Bus. All is going well.
- Lake Grace Seniors. Just had their AGM.
- RSL. Have received grant funding for the ANZAC service.

The CRC also received a \$26,683 grant for outdoor exercise equipment, this is yet to be ordered.

We have purchased one new staff computer and have ordered a new photocopier.

5.3 LAKE GRACE COMMUNITY RESOURCE CENTRE SEMINAR ROOM FINANCIAL REPORT

26/10/2021—9/03/2022

Seminar Room Hire Account Reconciliation:

Balance of Seminar Room Account 26/10/2021		\$1,937.99	
05/01/22	Venue Hire (Sep-Dec)	\$388.64	<u>\$2,326.63</u>

Seminar Room Bank Account Statement Reconciliation:

Balance of February 28th Bank Statement			\$2,326.63
Less Unpresented payments	\$0		\$2,326.63
Plus Unrecorded deposits		\$0	<u>\$2,326.63</u>

6.0 MATTERS FOR CONSIDERATION

6.1 BUILDING GARDENS - WATERING

The School is waiting on a water usage report from the contract plumbers. A school Board Member is going to sort out the CRC/Library/Pre Primary reticulation. Shire is going to do a three month water/effluent water trial.

6.2 RODENT CONTROL

Michelle going to put in a report to get the Library/CRC building baited for rodents and sprayed for spiders.

7.0 OTHER BUSINESS

8.0 DATE OF THE NEXT MEETING

8.1 LAKE GRACE LIBRARY RESOURCE AND COMMUNITY RESOURCE COMMITTEE MEETING

The next Lake Grace Library Resource and Community Resource Centre Management Committee Meeting is on Tuesday 17 May 2022, commencing at 11.00am at the Lake Grace Community Library, School Place, Lake Grace WA.

9.0 CLOSURE

There being no further business to discuss, the Chairperson closed the meeting at 11.35 am.

10.0 CERTIFICATION

I, Jedda Trueman certify that the minutes of the meeting held on the 26 October 2021 as shown were confirmed as a true record at the meeting held on 15 March 2022.

SHIRE OF LAKE GRACE

Minutes of the Audit Committee Meeting held at Council Chambers, 1 Bishop Street, Lake Grace, WA on Thursday 24 March 2022.

The Local Government Act 1995 section 5.8 provides that Council can establish committees of three (3) or more persons and an Absolute Majority decision is required.

Councillor Peter Stoffberg was the former Chairperson of the Audit Committee and is no longer a Councillor for the Shire of Lake Grace. As such and in accordance with Section 5.12, the members of the committee are to elect a presiding member from amongst themselves.

1.0 DECLARATION OF OPENING/ANNOUNCEMENT OF VISITORS

The Chief Executive Officer opened the meeting at 10:02am and advised that today's Audit Committee Meeting will consider the election of the Presiding Member.

The CEO is to preside at the meeting until the office is filled and will then hand over the meeting to the Chairperson.

1.1 ELECTION OF PRESIDING MEMBER

Section 5.12 of the Local Government Act 1995 states that the members of the committee are to elect a Presiding Member from amongst themselves.

The Chief Executive Officer called for nominations for the role of Chairperson. Mr Ollie Farrelly nominated Cr Steve Hunt; and that there being no further nominations received, the CEO declared Cr Hunt elected unopposed as Chair of the Audit Committee.

The Chief Executive Officer handed over to the Chair to continue with the meeting.

2.0 DISCLAIMER READING AND ACKNOWLEDGEMENT OF COUNTRY

No responsibility whatsoever is implied or accepted by the Shire of Lake Grace for any act, omission or statement or intimation occurring during Council and Committee meetings or during formal and informal conversations with staff. The Shire of Lake Grace disclaims any liability for any loss whatsoever caused arising out of reliance by any person or legal entity on any such act, omission or statement or intimation occurring during Council and Committee meetings or discussions. Any person or legal entity who acts or fails to act in reliance upon any statement does so at that person's and or legal entity's own risk.

In particular and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning application or application for license, any statement or limitation or approval made by a member or officer of the Shire of Lake Grace during the course of any meeting is not intended to be and is not taken as notice of approval from the Shire of Lake Grace. The Shire of Lake Grace warns that anyone who has an application lodged with the Shire of Lake Grace must obtain and only should rely on WRITTEN CONFIRMATION of the outcome of the application and any conditions attaching to the decision made by the Shire of Lake Grace in respect of the application.

Acknowledgement of Country

I begin today by acknowledging the Ballardong people, Traditional Custodians of the land on which we meet today, and pay my respects to their Elders past, present and emerging. I extend that respect to Aboriginal and Torres Strait Islander peoples here today.

<u>Summary</u>

The purpose of this item is for the Audit Committee to consider and recommend to Council receive the 2020/21 Annual Financial Statements and associated Auditor's Report.

Background

The draft Annual Financial Report for the year ended 30 June 2020 was presented to the Shire of Lake Grace's auditor AMD on 27 August 2021. The auditors undertook the annual site visit to Lake Grace between 4 and 5 October, with follow up work completed electronically and meetings at their offices in Bunbury throughout November and early December. Following significant delays from the Office of the Auditor General, the exit meeting was held on 17 February 2022 with the audit opinion finally being signed off on 18 March 2022.

Section 5.54 of the *Local Government Act 1995 'Acceptance of Annual Reports'* requires an Annual Financial Statement to be accepted by Council by 31 December in each year, unless the Auditors Report is not available in time. The *Local Government Act 1995* Section 5.54(2) requires that if the Annual Report is not accepted by the Local Government by 31 December, then it must be presented within two (2) months of the Auditors report becoming available.

As per usual practice it is intended that the advertisement advising of the Annual Electors Meeting and the availability of the 2020/21 Annual Report will be placed in the *Lakes Link* and *Gatepost*, as well as the West Australian newspaper. Notices will be also placed on our notice boards and the Shire's website and Facebook page.

Comment

The completion of the audit report confirms all figures for the 2020/21 year including the carried forward position as at 30 June 2021.

The audit management report has made three moderate findings and recommendations as detailed below:

- 12 instances of minor purchasing transactions did not have documented evidence of quotations being sought – management will refine existing procedures to ensure all staff follow and document purchasing processes.
- 2 instances of purchase orders being raised after supplier invoices were received as above, existing procedures will be updated and implemented with staff educated accordingly.
- The Shire does not currently have an approved IT Disaster Recovery Plan in place, and backups of the IT system are not stored off site development of the Shire's plan is currently underway (including offsite storage), and anticipate presentation to Council by end April 2022.
- Two other matters relating to IT Usage and Related Party Disclosures policies had already been adopted by Council and implemented in June and October 2021 respectively.

It is pleasing to note the significant matter raised in the 2020 financial year audit that the Shire's asset renewal ratio (ARR) being below the Department of Local Government, Sport and Cultural Industries standard for two financial years (0.33 whereas the Department standard is between 0.75 and 0.95) is now rectified. For the 2021 year the ARR was 0.96 which exceeds the DLGSC standard range – this is largely attributed to the very significant capital works program the Shire is undertaking with Commonwealth funding for the Drought Communities Program and the Regional & Local Community Infrastructure Program.

Statutory Implications

Local Government Act 1995

Section 5.53 Annual Reports;

- (1) The local government is to prepare an annual report for each financial year.
- (2) The annual report is to contain
 - (a) a report from the mayor or president; and
 - (b) a report from the CEO; and
 - [(c), (d) deleted]
 - (e) an overview of the plan for the future of the district made in accordance with section 5.56, including major initiatives that are proposed to commence or to continue in the next financial year; and
 - (f) the financial report for the financial year; and
 - (g) such information as may be prescribed in relation to the payments made to employees; and
 - (h) the auditor's report prepared under section 7.9(1) or 7.12AD (1) for the financial year; and
 - (ha) a matter on which a report must be made under section 29(2) of the Disability Services Act 1993; and

- (hb) details of entries made under section 5.121 during the financial year in the register of complaints, including
 - (i) the number of complaints recorded in the register of complaints; and
 - (ii) how the recorded complaints were dealt with; and
 - (iii) any other details that the regulations may require;

and

(i) such other information as may be prescribed.

Section 5.54 Acceptance of Annual Reports;

(1) Subject to subsection (2), the annual report for a financial year is to be accepted* by the local government no later than 31 December after that financial year.

* Absolute majority required.

(2) If the auditor's report is not available in time for the annual report for a financial year to be accepted by 31 December after that financial year, the annual report is to be accepted by the local government no later than 2 months after the auditor's report becomes available.

Section 5.55 Notice of Annual Reports;

The CEO is to give local public notice of the availability of the annual report as soon as practicable after the report has been accepted by the local government.

Section 5.55A. Publication of Annual Reports;

The CEO is to publish the annual report on the local government's official website within 14 days after the report has been accepted by the local government.

RESOLUTION 0169

Moved: Cr Armstrong Seconded: Cr Carruthers

That the Audit Committee recommend that:

- 1. In accordance with Sections 5.53 and 5.54 of the *Local Government Act 1995*, Council accepts the Annual Financial Report for the 2020/2021 financial year and;
- 2. In accordance with Section 5.55 of the Local Government Act 1995, Council authorise the Chief Executive Officer to give local public notice of the availability of the Shire of Lake Grace 2020/21 Annual Report from Friday 8 April 2022.

CARRIED: 5/0

Cr Clarke queried the following:

1. Back-up storage.

The consistent response from both the CEO/DCEO was, back-up is stored in the cloud via Market Creations and a copy is delivered offsite (Post Office).

2. Asset Renewal Ratio

Response from OAG Mickey Fiorucci - asset renewal ratio increased above the Department of Local Government threshold and there has been no adverse trends reported. Currently, there is no available information yet but OAG will advise all local governments as soon as information is released by the Department regarding amendments to the required reporting ratios.

Cr Carruthers queried the findings regarding the purchase orders, he stated that sometimes it is impractical to ask for quotes especially if there are no local suppliers within the area.

Both the CEO and the DCEO responded that this policy and process change has already been completed and adopted by Council during the Ordinary Council Meeting of 29 September 2021 under Resolution No. 13469.

Response from OAG – it is recommended that the Shire of Lake Grace review/update/streamline the purchasing policy accordingly particularly those high valued transactions to eliminate problems during discovery.

11.2 COMPLIANCE AUDIT RETURN 2021

Applicant:	Internal Report
File No.	0528
Attachments:	Completed 2021 Compliance Audit Return
Author:	And .
	Mr Chris Paget
	Deputy Chief Executive Officer
Disclosure of Interest	Nil
Date of Report	21 March 2022
Senior Officer	Cong
	Mr Alan George
	Chief Executive Officer

<u>Summary</u>

The purpose of this report is for the Audit Committee to recommend that Council adopt the statutory Local Government Compliance Audit Return (CAR) for the year ending 31 December 2021.

Background

Under the Local Government (Audit) Regulations 1996, a Local Government is required to carry out a Compliance Audit for the period 1 January 2021 to 31 December 2021. Once received and endorsed by Council, the certified return then needs to be submitted to the Director General, Department of Local Government, Sports and Cultural Industries by 31 March 2022.

The Compliance Audit Return must be:

- 1. reviewed by the Audit Committee;
- 2. presented to Council at a meeting of the Council;
- 3. adopted by the Council and certified by the President and CEO, then
- 4. recorded in the minutes of the meeting at which it is adopted.

The Compliance Audit Return is intended to assist Council in monitoring its organisational functions and provides an additional element of accountability through a check on internal management systems, procedures and record keeping. This in turn demonstrates the Shire's emphasis on improving its good governance, compliance, and best practice methods. Council is required to note any areas of non-compliance and endorse remedial action. The Audit is provided

by the Department of Local Government through their secure website platform named Smart Hub, and is required to be completed by every local government in Western Australia.

Comment

There were four items of non-compliance noted out of the total 98 items (9 of these being optional disclosures) included in the Shire of Lake Grace 2021 CAR, and this equates to an achievement rate of 95.92% which is <u>better</u> than the 2020 result of 91.18%.

Additionally, one question in the Finance topic section was answered as 'no' for non-compliance: page 7 No.3 LG Act s7.9(1) *Was the auditor's report for the financial year ended 30 June 2021 received by the local government by 31 December 2021?* This occurred due to no fault of the Shire and has not been counted as our non-compliance, as the Office of the Auditor General wrote to the Shire President on 23 December stating our audit would be delayed due to their workloads and COVID-19 measures resulting in significant labour shortages for the audit profession.

The non-compliant matters identified for each CAR topic area are as follows:

Delegation of Power/Duty

(Page 2 No.13) LG Act s5.46(2): Whilst a full review of the delegations register was undertaken and accepted by Council in December 2021, this was not within the 2020/2021 financial year as specified in the CAR question.

Integrated Planning and Reporting

(Page 8 No.1) Admin Reg 19C: The Shire of Lake Grace Strategic Community Plan was adopted by absolute majority of Council on 28 June 2017 and thus was due for major review in 2021; this did not occur within that calendar year.

Tenders for Providing Goods and Services

(Page 11 No.1) F&G Reg 11A(1) and (3): The annual financial audit identified 12 instances of minor purchasing transactions that did not have documented evidence of verbal or written quotations being sought in line with Council's purchasing policy.

(Page 11 No.7) F&G Reg 17: Whilst the tender register was available for public inspection at the Shire office, it was not published on the Shire website.

Statutory / Legal Implications

Local Government Act 1995 section 7.13(i) Local Government (Administration) Regulations 1996 - Regs 13, 14 & 15 Local Government (Audit) Regulations 1996 Local Government (Elections) Regulations 1997 Local Government (Functions and General) Regulations 1996 Local Government (Rules of Conduct) Regulations 2007

02/07/2020	Radio communication issues	Workshop in to be arranged with stakeholders to define the issues and the specific areas where problems are occurring and plan a way towards a joint solution	CESM DFES GS/ Operational Communica tions	With DFES Op. Comms & GS (See below)	Ongoing
14/10/2020	BFB Training	Bush fire training to suit seasonal workers needs to be developed. CESM to discuss with DFES.	CESM	Rural Fire Awareness course is available to be delivered now.	Complete
30/03/2021	Minimum Training requirements	BFAC to request Council to consider minimum training requirements	CESM	See Agenda Item.	Ongoing
30/03/2021	Collocation of LG Town BFB & LG VFRS	Working Group to be convened with relevant stakeholders to discuss	CESM	CESM to provide update to Mar 2022 BFAC	Ongoing

Service Medals – UPDATE (29/03/2022)

DFES contacted me (CESM – Matt) and advised that all the medals the Suzan applied for have now been processed. Due to the time between application and processing they understand that there will be people who may now be eligible for medals that were previously missed. We will run a follow-up report and apply for any subsequent medals in May so we are ready to host an event when the Covid situation settles down.

Radio communication issues – UPDATE (28/03/2022)

Traditional Owners have been involved in locating a site which works for DFES comms. Funding has been allocated to be spent by 30 June 2022, which will be carried forward. Next Steps, DFES to Apply through DBCA to Indigenous corporation for lease to proposed site for Tower. The plan is currently that this new tower would be linked to 245 & 244 Lake Grace command channels. Next Meeting 29/03/2022.

Collocation of LG Town BFB & LG VFRS – UPDATE (16/03/2022)

A working group meeting was held on Tuesday 15/03/2022 at the Shire office. DFES are unable to commit to collocation currently. Looking to the future, we will plan to build a Fire Station at the block next to the Ambulance station which can cater for the LG VFRS to collocate to at a later date. (Different building standard to BFB). We will develop a plan for a BFB station while concurrently applying for a 4.4 Rural or Broadacre fire appliance for Lake Grace/ Zone 1 & 2.

Questions: Location of Tower? A: Ongoing.

5 **REPORTS**

If possible, please submit written reports prior to the meeting.

5.1 CHIEF BUSHFIRE CONTROL OFFICER

The fire season started nervously last year with an extremely high fuel loads from such an awesome wet winter.

Harvest went off without too much of a hitch with the exception of a couple early callouts in Mount Madden due to low comb height, it seems that we didn't have any more dramas than a normal year.

Towards the end of January, we had a large influx of pole top fires throughout the Shire and also neighbouring shires as well, seems that even new poles were burning.

February saw the resumption of pole top fires and dry lightning fires. 12th of February was a busy one for most people that were available.

Those events brought out a couple of concerning issues which I would like to touch on without pointing fingers.

FCO's at a fire of any significance need to lead by example.

Every FCO should implement LACES as a minimum standard. I'm fairly sure that some FCO's are not even aware of the acronym, this will need to change.

- Lookouts
- Awareness
- Communications
- Escape Routes
- Safety Zone(s)

Great to see Lake King and Mount Madden have started the rollout of the Rural Fire Awareness course which nearly did all the landholders it can be done in 4 hours.

They held 2 courses over the day with Matt and Blake who came from Narrogin to help.

We are scheduling Lake Grace to be done towards the end of June. Just need some feedback from Newdegate and Varley on times from then.

The new Lake King fire truck to arrive this year which will be a great long-overdue as the loan trucks don't seem to be reliable. We had our first meeting in the Lake Grace about a fortnight ago to start the process of trying to relocate the VFRS and local Brigades in one building.

This looks like it's not going to happen in the near future. We can still apply for a truck and a building, but the VFRS will need to stay put in the old building for now.

The plan is for the new building to be in between the Sportsman's club and ambulance building to house a truck and our fire brigades both Lake Grace South, Lake Grace North, and the town brigade.

I think we will be a while waiting but if we can get a truck in the meantime, it can be housed in the shire depot.

Looks like we will have some scrub rolling approved for dragon rocks, not sure when or how much has been approved but time will tell.

Also, we are hearing a (Radio) Comms Tower may be in the pipeline for the eastern area. This also has not been confirmed but Matt will know some more details as they come to hand.

The money we have been offer back from the ESL this year is \$56,620, with all the extra requirements that are being forced on us over OH&S is leaving us well short of resources.

The current budget that has been drawn up comes to \$290,996, a difference of - \$234,376.

Don't hold your breath waiting for the money but Matt has done a terrific job putting this together, he can touch on this in his report.

I'm stepping down this time, its going to happen, I will not get a weak moment and stand again. Its time for fresh blood and new ideas. I'm tired and for my own health. I need to go. I've had a big learning curve in what I have done as Chief.

Personally, I would like to thank all who have helped me in some way through when things have been tough and not going to plan. In my journey I've seen 3 CEO's, 4 CESM's and numerous pieces of legislation to try and help training to improve our volunteer's safety without any more financial assistance.

I would like to see Matt and his young family stay with us for as long as we can make him feel welcome. His workload will increase in the second half of this year with Dumbleyung Joining our ranks. Thank you, Matt, for a very professional approach to everything you have taken on with us.

I would like to thank Alan, CEO and Craig, Works and Infrastructure Manager and the Councillors for supporting our volunteers. I think we've all had a good working relationship over the past years.

I'd like to thank all dedicated FCOs for the outstanding job you guys have all done n the last 12 months, keep it up.

To finish up, I'd like to welcome the new chief going forward and knowing what's its like, I'll be giving him my 100% support.

Thank you Brad Watson Outgoing Chief Bushfire Control Officer

Comments:

Cr Chappell: On behalf of Shire of Lake Grace, and all FCO's, thanks for all your support and efforts over your years of service to the Shire.

5.2 DEPUTY CHIEF BUSHFIRE CONTROL OFFICER(S)

Hugh Roberts: Nil

Doug Dunham: Thank you to Brad for your efforts.

5.3 BRIGADE CAPTAINS

5.3.1 Lake Grace North BFB (Farm Response)

As per CBFCO report, Happy with response and turnouts, Please keep getting people to call 000 and report fires.

5.3.2 Lake Grace South BFB (Farm Response)

Kevin – Nil

5.3.3 Lake Grace Town BFB

Nil

5.3.4 Newdegate North BFB (Farm Response)

Nil

5.3.5 Newdegate South BFB (Farm Response)

South: Quiet – 2x header fires, out within an hour, quick response, good efforts. Dry spell over December.

5.3.6 Newdegate Town BFB

Thanks to Brad for his efforts

5.3.7 Varley BFB

Training to come after seeding

5.3.8 Lake King Town BFB

Jason Sugg - Thanks for providing training in Lake King, it was received well. Keep reporting fires

5.3.9 Mount Madden/ Dunn Rock BFB (Farm Response)

Anthony Teale - Busy start to harvest roughly 6 fires, most people hadn't fought a stubble fire, first was chaotic then got more streamlined. Everyone really started working in well together.

Big thanks to Brad.

5.4 DEPARTMENT OF FIRE AND EMERGENCY SERVICES

Nil

5.5 DBCA PARKS & WILDLIFE SERVICE

Department of **Biodiversity**, Conservation and Attractions

Report for Lake Grace Shire BFAC Meeting March 2022

Bushfires

We have had 23 bushfire incidents in the DBCA Wheatbelt Region burning a total of 63,925 hectares. 4 of these bushfires have started on DBCA managed lands burning 1,062 hectares. 2 fires on Other Crown Land and the remaining 17 on private property.

5 of the fires were caused by lightning, 8 from headers, 3 power line, 2 escaped private burns and the other 5 accidental or suspicious.

Two main fires DBCA attended in Lake Grace Shire were at One Mile Rocks and Breakaway Ridge.

The total number of fires is somewhat increased due to the presence of water bombers in the region during harvest, meaning they were called upon more than they normally would have been.

Bushfire Mitigation

Dragon Rocks

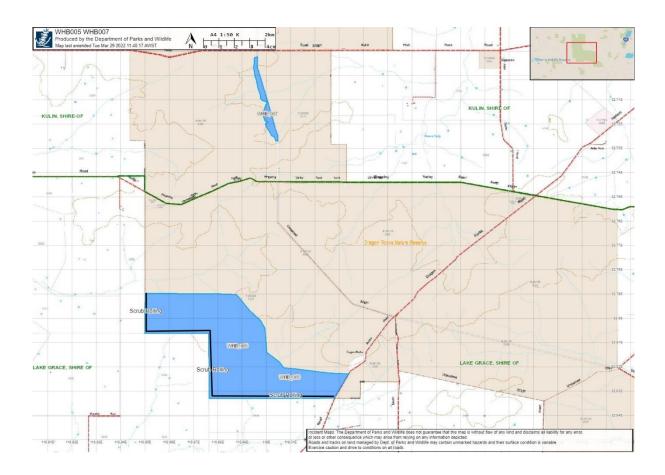

We are doing fire break maintenance at Dragon Rocks shortly to improve access for fox baiting and bushfires.

Prescribed Burn Dragon Rocks

There are still two prescribed burns planned at Dragon Rocks.

The burn in the most SW corner of the reserve, we are now looking at scrub rolling the vegetation and then burning it with the wind to create a fuel reduced buffer. This will make it easier to undertake, rather than trying to burn standing vegetation. Scrub rolling to occur in a couple of weeks and then burning in early May. See map attached.

Apologies I can't be there today, but I am happy to come and meet with people at a later date to discuss some of the reserves people are concerned about such as Silver Wattle.

5.6 COMMUNITY EMERGENCY SERVICES MANAGER

With our local bushfire season winding down it has been good to reflect on the season to see how we are going and start to ramp up our training and determine mitigation priorities. From what I can gather we have had an average to quiet year, with most fires being extinguished quickly, and no significant incidents within any reserves, which is a great result.

On behalf of the Shire, I would like to extend our thanks for your support and assistance with response and management of fires over the summer. Please also pass our thanks and gratitude to your families who you leave behind to come support the community, without their support I understand you would not be able to do what you do.

Also, a big thank you to Brad for your support for me and the Community. You have a level-head and lead the group well. You will be missed.

The incidents reported to date is currently at 52, up from 26 reported last year. We need to continue our community engagement to get everyone to call 000 to report all fires, no matter how small. These incident statistics help the Shire to demonstrate our bushfire risk based on the occurrences of fire in the district, which helps with applying for resources and grants.

The implementation of the new *WHS Act 2020*, has generated some work in having to consider actions that we will need to commence to work towards compliance. There is an item in the agenda later to discuss this specifically.

While this will be challenging in terms of the change to how we do business, it is important for me to help build capability and capacity into you as FCOs and the Members, so if I am unavailable to assist at an escalating incident you can be confident in running it, you can implement the AIIMS structure and know how to integrate with DFES as it gets bigger. It helps us make sure everyone is looked after and goes home well at the end.

There is some work being done at DFES in Narrogin about the engagement of machinery at incidents to help us all know what the rules are to make sure we don't have headaches later with disputed invoices or unexpected costs. When this is ready for circulation, I will send it out.

We have submitted our annual Operating Grant and Capital grant for the Local Government Grant Scheme, which is how we get out main funding for running the brigades. I have added an item in General Business to give some details on our operating grant. With respect to our capital grant, we have applied for a 4.4 Rural or Broadacre tanker for the Lake Grace and a 12.2 bulk water tanker to be based in centrally in Newdegate, with some additional fast fill trailers.

The 12.2 bulk water tanker would be considered a shared resource if we were awarded it and it would likely be requested to assist at least within our DFES region and potentially beyond.

The Shire is working on a Bushfire Risk Management Plan which looks at all land tenures across the Shire and assesses the Bushfire Risk based on a state standard. Once our plan is endorsed by the Office of Bushfire Risk Management (OBRM) we are eligible to apply for money to do mitigation activities on Shire vested lands, such as forestry mulching, weed spraying, fire break installation, prescribed burning etc. The plan is expected to be completed soon, and we may be eligible to apply for the second grant round this year.

In addition, Mitigation of UCL/UMR lands in gazetted townsites is a DFES responsibility, which they have just completed training on, so it is hopeful things like Lake King will get some attention. Management of UCL/UMR outside of gazetted townsites is a DBCA responsibility.

5.7 REGIONAL OPERATIONS ADVISORY COMMITTEE

ROAC has been delayed due to COVID planning and will be held on 31 March 2022 both in person and on-line.

5.8 COMMENTS ON REPORTS

Brad Watson – CBFCO – Expressed his strong disappointment that DFES did not table a report or send a delegate, especially with the significant fires that have occurred within our DFES region.

Cr Ross Chappell – I would also like to extend Thanks on behalf of the Shire for the volunteers who went to assist at Wickepin. Your service was greatly appreciated

Cr Ross Chappell – I have heard reports that the sessions held at the CBH bin meetings were well received and I would like to see them happen again moving forward to help with our engagement of the community on volunteer fire response and safety matters.

6 NOMINATIONS FOR ROLES

Prior to vacating all roles and calling for nominations, it is important to understand that as we move forward, especially considering the new *WHS Act 2020*, there will be increased requirements on FCO's specifically relating to Training and Leading our Firefighters and communities at incidents. This expectation is both from the Shire and the Firefighters as we progress through their Rural Fire Awareness training. While I understand this may be daunting, I encourage you all to remain involved as this will build capability into our Shire for you to manage incidents effectively, even when they start escalating.

If needed we can pause and jump to Agenda Item 8 on WHS and Training, then return for nomination of roles.

CESM: Meeting Jumped to Agenda item 8 for discussion and returned for nomination of role.

We now declare all roles vacant and proceed to nominations for roles.

6.1 NOMINATION FOR AND ELECTION OF PRESIDING MEMBER

As per the Terms of reference, BFAC members are to appoint a presiding member. The presiding member can be any of the members of the committee.

Pr	esiding Member
Nominee:	Ross Chappell

<u>Moved:</u> Geoff Richardson <u>Seconded:</u> Doc Roberts

Voting Requirements: Simple majority required. CARRIED

6.2 NOMINATIONS FOR FIRE CONTROL OFFICERS

6.2.1 NOMINATIONS FOR FCO

Legal Implications

- S.38. Local government may appoint bush fire control officer
 - (1) A local government may from time to time appoint such persons as it thinks necessary to be its bush fire control officers under and for the purposes of this Act, and of those officers shall subject to section 38A(2) appoint 2 as the Chief Bush Fire Control Officer and the Deputy Chief Bush Fire Control Officer who shall be first and second in seniority of those officers, and subject thereto may determine the respective seniority of the other bush fire control officers appointed by it.
 - (2A) The local government shall cause notice of an appointment made under the provisions of subsection (1) to be published at least once in a newspaper circulating in its district.

6.2.4 NOMINATION OF FIRE WEATHER OFFICERS

Legal Implications

A Fire Weather Officer may authorise a person who holds a permit to burn, to carry out that burn if the fire danger forecast is "catastrophic", "extreme", "severe" or "very high".

- 38. Local government may appoint bush fire control officer
 - (8) An approved local government may appoint to the office of fire weather officer such number of senior bush fire control officers as it thinks necessary.
 - (17) A fire weather officer of an approved local government ..., may authorise a person who has received a permit under section 18(6)(a), to burn the bush ... notwithstanding that for any day, or any period of a day, specified in the notice the fire danger forecast issued by the Bureau of Meteorology in Perth, in respect to the locality where the bush proposed to be burnt is situated, is "catastrophic", "extreme", "severe" or "very high", and upon the authority being given the person, if he has otherwise complied with the conditions prescribed for the purposes of section 18, may burn the bush.

Fire Weather Officers & Deputies

Fire Weather Officer:

• Chief Bush Fire Control Officer

Deputy Fire Weather Officers:

• Deputy Chief Bush Fire Control Officer(s)

Voting Requirements for acceptance of nominations: Simple majority required.

6.2.5 FCO's - Acceptance and Resolution

BFAC Resolution 03/2022:

That the Bush Fire Advisory Committee nominates to the CEO, for the 2022/2023 bush fire season, the persons listed as successful nominees in the Minutes of this meeting to be appointed to the positions of:

- Fire Control Officers**
- Chief Bush Fire Control Officer
- Deputy Chief Bush Fire Control Officer
- Senior FCO's
- Fire Weather Officers

** Letter to be sent to FCO's prior to appointment regarding training requirements.

<u>Moved:</u> Hugh Roberts <u>Seconded:</u> Brad Watson

7 CESM – Update BFAC Terms of Reference

The BFAC Terms of Reference need to be updated to the current practises.

A summary of changes is below. 2.1.1 Membership Remove section. Create appendix 1 for current membership, referenced under 2.1.3.6.

2.1.3.6 Membership:
Add Lake Grace Town BFB & Newdegate Town BFB as members.
Add Varley BFB as a member.
Rename Lake King/ Varley to Lake King BFB.
Remove 2x DCBFCO's
Add Senior FCO x3

2.1.3.12 Voting:

Remove wording under *LG Act 1995* s.5.21 reference. "Members are to vote by secret ballot on the Election of Positions to be recommended to Council as if they were electors voting at an election." Change to show of hands

BFAC Resolution 05/2022:

That the Bush Fire Advisory Committee endorse the changes proposed to the Terms of Reference to be submitted to Council for adoption.

<u>Moved:</u> Matt Castaldini <u>Seconded:</u> Geoff Richardson

Voting Requirements Simple majority required. CARRIED

8 CESM - WHS Act 2020

The *WHS Act 2020* was delayed from commencing in January 2022, until March 2022. Due to the increased awareness last year of the impending implementation we need to ensure that with any activities we undertake, we must consider and act, taking regard for safe work practices.

The previous act implied coverage of volunteers, including BFB's, however the new act takes it a step further for the protection of volunteers by being explicitly listed.

The new *WHS Act 2020* includes 'Positive Due Diligence' which is an ongoing action of reviewing and maintaining our practises to 'best practise'. It also sets the requirement for consultation prior to the enactment of any decisions relating to WHS matters and the people it impacts.

Important Sections:

- s.7 Meaning of worker.
- s.16 More than 1 person can have a duty.
- s.19 Primary duty of care.
- s.28 Duties of workers.
- s.47 Duty to consult workers.

8.1 PPC/E

While the minimum standards are long sleeves, long pants of a natural fibre, we need to work towards getting everyone kitted out in full PPC/E. It is a requirement of the WHS Act 2020 to provide the appropriate level of protective clothing and equipment. While I understand that the full allocation of gear has not been the local norm, we are obligated as a Shire to be providing the gear and promoting/ encouraging its use for personal protection.

Under the new law, you as a volunteer are considered the same as a staff member of the Shire in respect to health and safety.

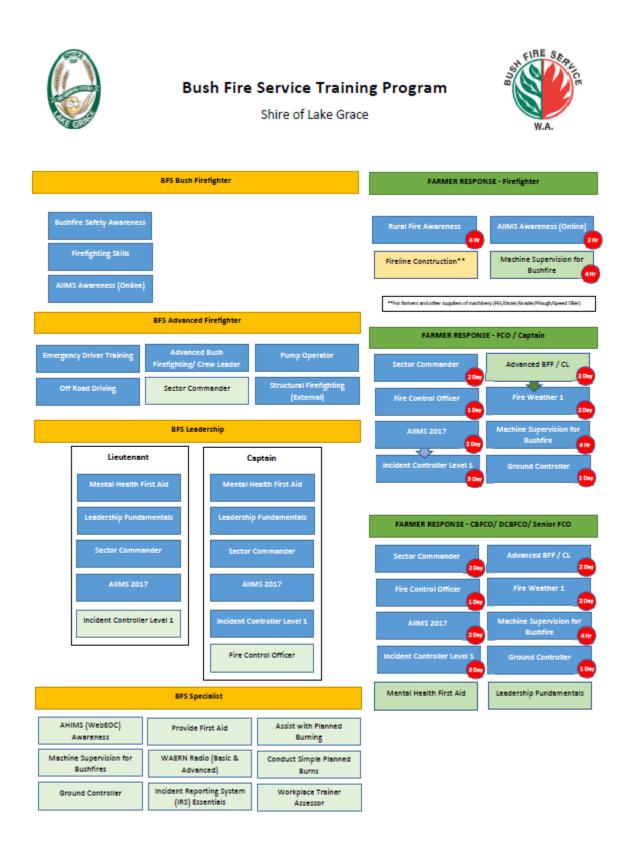

As you can imagine this will present a large cost on the Shire, which we acknowledge we will be unable to remediate straight away but will plan to achieve this in the coming years.

8.2 Training Requirements

The Shire of Lake Grace acknowledges the *WHS Act 2020* and the requirement to protect our volunteers. Specifically ensuring that our volunteers are suitably trained and equipped to be undertaking their role(s).

We are proposing that the Shire of Lake Grace adopt the below training program. The proposed training program covers a range of roles across our organisation and has been carefully considered to cover the competencies required for the provision of service to the community.

We understand that this intent will take some time to implement, however we would like to accelerate some areas where possible to bring benefit to our volunteers and the community we serve.

Required Course

Recommended Course

Comments:

FR Firefighter – Include AIIMS Awareness as Face-to-Face delivery in conjunction with Rural Fire Awareness in one hit. FR FCO/Captain – Change Ground Controller to optional. FR CBFCO/DCBFCO/Snr FCO – Accepted

Remove "Farmer Response" from names to avoid confusion. Better depict Town Brigade (Town Truck) training vs. Farm Response training requirements.

BFAC Resolution 02/2022:

That the Bush Fire Advisory Committee advises Council of its endorsement of the tabled Shire of Lake Grace Bush Fire Service Training Program, with modifications made as noted about, and requests that Council adopts the Shire of Lake Grace Bush Fire Service Training Program as a minimum standard for our brigade members.

- Farm Response to be completed within 1 year
- FCOs to be trained over 3 years.

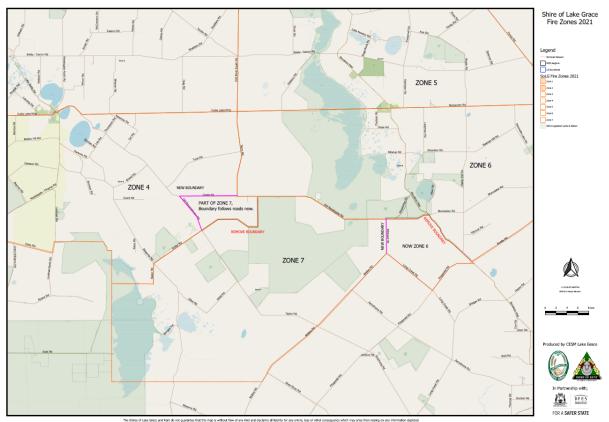

<u>Moved:</u> Brad Watson <u>Seconded:</u> Hugh Roberts

<u>Voting Requirements</u> Simple majority required. - **CARRIED**

9 Zone Boundary Changes

There have been a few times over the last season that Zone boundary lines have been questioned to provide a better representation of the observed weather patterns.

The main area of discussion is the Zone 4, 6 & 7 intersection, to a more definable area, with similar weather observations.

Reads and tradis may contain unmarked hazards and their surface condition is variable. Exercise extreme caution and drive to conditions on all reads.

BFAC Resolution 06/2022:

That the Bush Fire Advisory Committee advises Council of its endorsement of the amended Zone boundaries for the Shire of Lake Grace.

<u>Moved:</u> Anthony Teale <u>Seconded:</u> Wes Hall

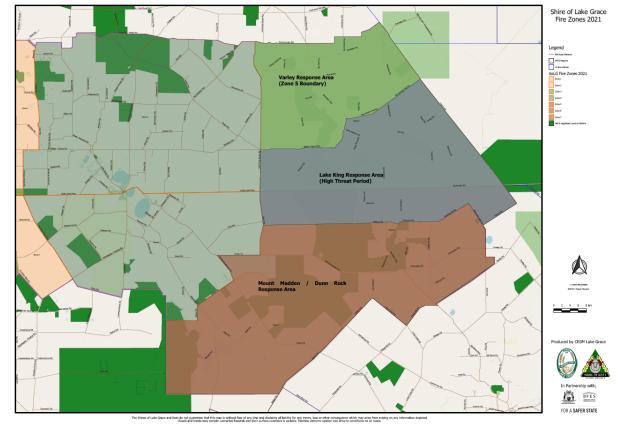

<u>Voting Requirements</u> Simple majority required. - **CARRIED**

10 Brigade Response Areas

We currently have 7 Zones and 9 brigades. To keep things simple, we need to confirm the agreed 'standard' response areas for each brigade to assist with mobilisation when working with DFES communication centre.

Lake Grace North = Zone 1 Lake Grace Town – Nil at this stage Lake Grace South = Zone 2 Newdegate North = Zone 3 Newdegate Town = Support Zone 3 & 4 Newdegate South = Zone 4

Varley/Lake King/Mount Madden-Dunn Rock on the map below.

BFAC Resolution 07/2022:

That the Bush Fire Advisory Committee endorsed the agreed brigade primary response area boundaries for the Shire of Lake Grace.

<u>Moved:</u> David Roberts <u>Seconded:</u> Anthony Teale

<u>Voting Requirements</u> Simple majority required. **CARRIED**

11 CESM: Mid-band Repeaters

As a legacy from when DFES introduced the Yellow WAERN radios, the old radio repeater infrastructure has been left in place on the radio towers and linked to our new channels. As far as I am aware, no one has radios which utilise these frequencies any more.

These mid-band channels were the cause of some radio interference over the fire season, with some traffic caused by atmospheric ducting of the radio waves to a repeater of the same frequency located in Wooroloo, in the Shire of Mundaring.

We use Ch 245 & 244 now; the old channels were Ch 30 & 34. The radios used for the old channels were a rectangular black until with the buttons on the control head, and a simple mic.

The Shire of Lake Grace pay annual license fees to keep the frequencies licensed. If the infrastructure is no longer in use, the Shire does not need to pay renewals and the equipment can be decommissioned when DFES radio technicians next attend our repeater sites.

BFAC Resolution 08/2022:

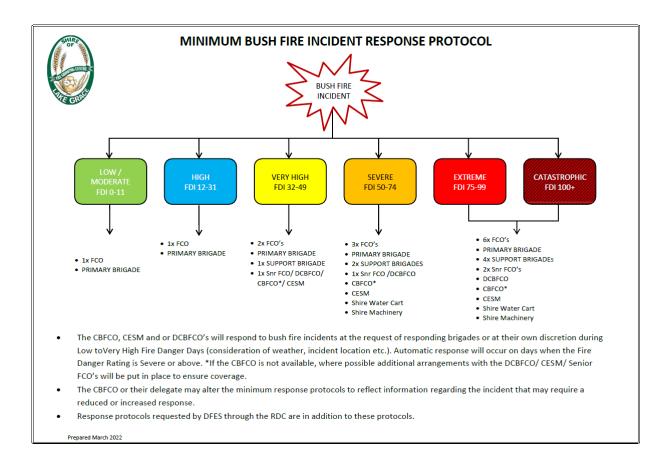

That the Bush Fire Advisory Committee endorses decommissioning of the legacy mid-band infrastructure that is no longer in use.

<u>Moved:</u> Matt Castaldini <u>Seconded:</u> David Roberts

Voting Requirements Simple majority required. CARRIED

12 CESM: Mobilisation Plan

To assist FCO's with coordinating response to incidents, I am proposing the following response plan to be endorsed to support the Shire in the responsibility to manage the outbreak of fire within out district.

BFAC Resolution 09/2022:

That the Bush Fire Advisory Committee endorses the Minimum Bush Fire Incident Response Protocol as the Shire of Lake Grace Mobilisation Plan (With below changes).

- VH FDR add Shire machinery and 3 FCOs
- Severe FDR add 4x FCOs

<u>Moved:</u> Matt Castaldini <u>Seconded:</u> Doug Dunham

Voting Requirements Simple majority required. CARRIED

13 CESM: Farm Fire Response Capacity – Section 33 Notice

At the Narrogin East Bushfire debrief, there was some discussion regarding the use of Farm Fire Units at the incident.

The representatives from the Shire of Wickepin advised that in the last few years, due to the growth of farms and the reduction of people, it was becoming more critical to have greater than 600 litres of water in any given paddock while operating machinery/ harvesting. They advised that they changed their minimum requirement to 1200 litres, comprising of either a small truck with 1200+ litres or a pair of Utes with 600 litres each, or a Ute and a trailer. They observed that at the recent fire, that their changes resulting in having more suitable equipment available to assist combatting the fire. Additionally, the people who had purchased trucks were blown away with the effectiveness compared to utes and/or trailers.

Additionally, the Shire of Narrogin representatives stressed the issues that occurred with trailers at the incident, with an unconfirmed report that a member possibly losing a finger/ thumb, along with several near misses being recorded relating to the operation trailers at the fire. They held strong views as to the use of trailed fire units at fires. They did offer one concession, which was for use mopping up in open paddocks with minimal smoke/ visibility issues.

At the last BFAC meeting we discussed trailers, Health and Safety and looking to the future. We did not come to an agreement for a specific recommendation, however, with times changing and the increased awareness on the safety of responders, I propose we endorse some local guidelines or a Shire policy around trailers to discourage their use at fire incidents.

Comments:

Hugh Roberts: With 1200L people will put it on 1 ute, which is overweight. Proposed that people have sufficient water on farm. Can't say no to people bringing a trailer. Need to be placed in strategic location. (Low risk activity)

Brad Watson: Min 600 on vehicle, and some spare in paddock. Especially when operating with seed destructors. FCO group to promote and educate improvements to farm firefighting capacity/ capability.

Doug Dunham: No point having a trailer in a paddock if it isn't hooked up.

Ross Chappell: Some people are using water tanks and pumps on chaser bins now.

Consensus: If we stipulate more water then most people will overload utes. We don't want to push people towards trailers. FCOs to recommend and suggest people away from trailers for future firefighting investments, not mandated. Change wording to recommend higher capacity, with the minimum remaining at 600L at this stage. Maybe review in a few years to increase.

BFAC Resolution 10/2022:

That the Bush Fire Advisory Committee recommends to Council that the Shire of Lake Grace administration amend the Section 33 notice to encourage farmers to increase firefighting water capacity. Retaining minimum requirement of 600L, recommending 1200L.

• (Where possible, to note that 'Trailers are to be hooked up' not left in the corner of paddocks.)

<u>Moved:</u> Brad Watson Seconded: Doug Dunham

Voting Requirements Simple majority required. CARRIED

14 GENERAL BUSINESS

14.1 CESM: Emergency Register & Resource List

We have started developing an emergency register and resource list for the Shire as a supporting document for the FCO's. <u>The document is a Shire document, only for distribution</u> <u>to FCO's for use at incidents.</u>

The intention of the document is to provide a list of all registered brigade members, by brigade, with contact details, local contractors and their machinery, any relevant shire contractors (traffic management, plumbers, electricians etc), privately owned fire response equipment in each brigade, fire water locations on a map, possibly the revisited homestead map.

This can be used by FCO's at escalating incidents to be able have an idea of equipment within neighbouring areas when you are assisting each other. (You will have a good idea of what is in each your own patch, not always what is in another area).

I would appreciate your support with collecting this information, once complete we will distribute along with your FCO ID Cards for the new season, and any other materials required.

14.2 COVID-19 Vaccination Mandate

As per the WA State Government Mandate, all registered volunteer firefighters are required, at this time, to be vaccinated.

The mandate specifies that only vaccinated persons (both registered members or community) are to attend incidents.

Please submit your vaccination details to the CESM - Matt ASAP.

14.3 COVID-19 Close Contact/ Positive

To try maintaining a coordinated response, we are requesting that if you are a close contact or are positive and are isolating, to please let the Chief or the CESM know. This is to help ensure we have sufficient response capacity across the Shire, and we can coordinate support from neighbouring zones if a given zone is has reduced capacity, OR from out of Shire if required. Similarly, we may be requested to assist over our borders if neighbouring areas are having similar response capacity issues.

14.4 Farm Responders to be Registered Please

We have worked through our membership lists for Lake Grace North, Varley, Lake King and Mount Madden/Dunn Rock. We have found that the Newdegate North, South and Town Lists need some attention to register the farmers and full-time workers in the area to better reflect the current capacity and enable them to be added to the SMS notifications when we have fires.

14.5 Guidelines for Operation of Private Machinery at Incidents

A new guideline has been developed by DFES, replacing a 2011 publication. The content is fairly aligned with the Rural Fire Awareness course. There are also some new checklists at the rear of the book that would be good to use a process to register farm responder vehicles with the triangle stickers.

The book is also a good reminder of the Rural Fire awareness course. I have ordered a number of these books to be distributed at upcoming courses if they arrive in time. We will arrange for the LK & MM/DR members to get their copies when they arrive.

14.6 Membership Check

- Brigade lists will be on a table to be reviewed after the meeting.
- If anyone has moved on and needs to be removed, please let the CESM know.
- If you have suggestions for new members, please include contact details so they can be contacted to register OR please take some forms to pass on to them.

14.7 Shire SMS System/ List

We have ~840 contacts on the Shire SMS system and we are not sure if they are all still valid.

We are looking at an internal process at the Shire to be able to temporarily register transient workers for groups such as CBH construction teams who only need the notifications for ~3 months while working.

Any feedback welcome.

Brad Watson: Push people to WhatsApp?

<u>Alan George:</u> Staff have previously called contacts and removed people <u>Brad Watson:</u> The list has grown over the last few years, it used to be ~500 <u>Ross Chappell:</u> groups have been amalgamated.

Shire will investigate.

14.8 ICV – Incident Control Vehicle

With the training getting rolled out, it highlights the importance of checking in before starting to undertake firefighting activities. In the Metro we have access to an Incident Control Vehicle, which carries incident management supplies and acts as the check in point.

The Incident controller is based at the ICV, where they can task incoming crews, and have them recorded as in attendance. (helps with catering and safety). Another benefit of an ICV is that it becomes a catering point, where food is sent to.

In the Shire of Mundaring, before we received a DFES ICV, the brigades sourced an old bus and refitted the interior with equipment that is beneficial for incident management. We had functions like a computer and printer to be able to print maps/ weather forecasts/ IAPS etc, a generator to keep it all running 'off grid'. We had 2x yellow radios installed at 2 stations so the radio traffic could be monitored and assist the IC, so they weren't tied to a radio.

The crew/ responder attendance tracking was done on a whiteboard on the side of the bus to make it simple, following the AIIMS structure.

This role was provided by more senior members of the community who can man the bus and drive it out to provide support at incidents. An idea could be to ask the Shire if they would be interested in buying/ retaining the community bus when it is up for renewal and we as the volunteer fire brigade group either seek other small grants from external bodies or donate labour and materials to strip and build a new interior in the back like a small portable office to be able to do incident management more effectively onsite at an incident.

14.9 Volunteer Training

- Rural Fire Awareness Need to Book it in, please coordinate with your zones for good dates.
- Training for FCO's Please reach out and we can plan it in.

14.10 Local Government Grant Scheme (LGGS) Grant

Informative.

Each year the Shire is offered an operating grant from the State to assist with the costs of operating our Bush Fire Brigades. For your awareness, this year we were offered \$56,620 to run our 9 Brigades, with 244 Members, 3 Appliances and Stations.

Our first expense is our insurance, which is forecast to be \$31,475, followed by Station maintenance at a budgeted \$20,000, not really leaving much allowance for purchasing PPC/E, funding training, or any improvements etc.

We have submitted a counteroffer for \$290,996 with the budget tabled.

As you can see it costs a fair amount to operate the Brigades, on behalf of the Shire, I would appreciate your support to ensure we manage our costs as effectively as possible with the limited grant money we receive.

14.11 Shire of Lake Grace – Bush Fire Service – Life Membership

As we are looking at reducing our number of FCO's, do the FCO's present feel it would be worth investigating a Shire of Lake Grace Bush Fire Service life membership award and set up some conditions for how it is awarded/ eligibility etc.

Yes.

Discussion:

Suggestion to form group of interested parties to coordinate/ contribute. <u>Brad Watson:</u> We will need to determine a start date, so we don't have people coming out of the woodwork for recognition

Doug Dunham: (Quickly) "Some can't get out of the woodwork..."

Ross Chappell: Interested people to contact Matt to sort something out.

14.12 General Business from the Floor

Hugh Roberts: Fire weather district, we are lakes, it is too big east to west.

<u>Brad Watson:</u> Main impact is with implementation of TFB's, and Very High FDR for permits.

<u>Matt Castaldini</u>: Unfortunately, I believe it is now too late to action this. The AFDRS project has progressed along.

Brad Watson: This item can Go to ROAC. *Recommended our Fire Weather district is reviewed.

Brad Watson: Fire truck servicing send to Collie.

Matt Castaldini: As per a suggestion last year at ROAC, and with the implementation of the new WHS Act 2020, I was thinking it would be a good idea to send our fire trucks off to Collie to either South West Fire Units or Frontline Fire and Rescue Equipment to give the trucks a thorough service and provide a report. They will check that all of the ancillary equipment is present and serviceable, the lights and sirens, emergency striping stickers are in good condition, service the truck, service the pump and all required equipment.

<u>Alan George:</u> So long as there is some accountability in the work being done, not just finding work to be able to do it.

Brad Watson: If there was an independent inspection process then you can assess what needs to be done?

<u>Matt Castaldini:</u> It is much the same as taking your car to a mechanic for a service, these guys specialise in building and servicing fire trucks, so they know what to look for that previously may have not been looked at. From what I understand we get a report, where we can choose what we want repaired.

<u>David Roberts:</u> Propose we change to CB5. Most other Shires around us use CB 5, and it is the designated CB emergency channel.

<u>Brad Watson:</u> We tried this in Lake Grace North and South and it didn't work, people didn't adopt it. Often people don't change channels. We would need to make the change now, not later if we wanted to implement it for the coming season, so there is time to communicate it.

<u>Matt Castaldini:</u> We would need to do some targeted community engagement and possibly do stickers like Dumbleyung

Consensus: Agreement on stickers and community engagement <u>David Roberts</u>: People will see when they do their Rural Fire Awareness training how we can use the radio channels to work better at a fire.

BFAC Resolution 11/2022:

That the Bush Fire Advisory Committee endorsed the proposed change of emergency channel to CB 5 to be in line with surrounding areas.

- Request the Shire produce and issue stickers to community members.
- Request assistance from the Shire with community engagement.

<u>Moved:</u> David Roberts <u>Seconded:</u> Anthony Teale

<u>Voting Requirements</u> Simple majority required. **CARRIED**

David Roberts: We need to get the Brigades running better;

Ideally everyone should know who other responders in your area are, all members should know who the Captain is, as a point of contact for all members in that area/ Zone. It would be good to have more meetings together, do some prescribed burns in reserves to gain more experience, participate in local or formal training activities.

15 MEETING CLOSED

Thanks to Matt for bringing these items to our attention and Brad for your extended support to the Shire as Chief.

Suggestion to start earlier next year if we have a big agenda.

Presiding Member, Cr Ross Chappell, closed the meeting at 7:15pm.

16 CERTIFICATION

I,_____ certify that the Minutes of the meeting held on 30 March 2022 as shown were confirmed as a true record at the meeting held on the 14 September 2022.

Executive Summary

Background

360 Environmental Pty Ltd (360 Environmental) part of SLR Consulting (SLR) were commissioned by the Shire of Lake Grace to complete a Stage 2 Detailed Site Investigation (DSI) of a suspected former landfill site at Lot 13598 Dumbleyung Lake Grace Road, Lake Grace WA 6353. It is understood the Shire of Lake Grace are considering constructing a boardwalk and lookout on the northeast corner of the site to view Lake Grace.

The site was reported to be used as a landfill between 1936 and 1941 however there are no available records presenting any details on the use of the site for this purpose and therefore the existence and by association nature and extent of the landfill are not known.

Based on the above the site was reported to the Department of Water and Environmental Regulation (DWER) which was subsequently classified as Possibly contaminated-investigation required (PC-IR) on 7 October 2019 with DWER outlining a number of actions were required including investigations to be undertaken to confirm the historical use of the site and potential sources of contamination. In this regard a Stage 1 DSI was undertaken in 2021 comprising soil and groundwater investigation. The Stage 1 DSI was provided to DWER for review however DWER considered further investigation was required.

360 Environmental considers the overarching project objective for the Stage 2 DSI is to address DWER actions required and investigate and establish lines of evidence regarding the absence/presence of a historical source of contamination (former landfill) at the site

The scope of work undertaken to meet the project objectives included conducting a site survey via ground penetrating radar (GPR), installation of an offsite monitoring well, completion of an additional groundwater monitoring event and the preparation of this report.

Groundwater Penetrating Radar Survey

The GPR survey did not reveal any buried cells of landfill material within the investigation area. It is expected that where present mixed landfill material including organics and non-metallic debris would correspond to a detectable and significant increase in the Electro-Magnetic (EM) quadrature response. For the Lake Grace site, areas of increased EM quadrature response are interpreted to be related to variations in ground salinity, in particular within the flood plain and adjacent to the western shore of Lake Grace North.

An increase in the horizontal derivative of the EM in-phase response were also interpreted to be related to potential surface or shallow buried metallic material. Areas within the Lake Grace site with a response greater than 1200 ppm/metre may either be related to large isolated metallic targets such as vehicle parts or from areas with an overall increase in metallic content such as construction waste. It is noted that a number of these features, in particular within the eastern portion of the site, correspond to surface metallic debris observed on-site.

45264b_Rev I Stage 2 Detailed Site Investigation 101 13598 Oumbleyong Lake Grace Road, Lake Grace Shire of Lake Grace

Groundwater Monitoring Event

All monitoring wells reported strongly acidic to acidic groundwater conditions with salinity concentrations reflective of brine conditions. Groundwater results also showed the following:

- Nutrient and dissolved metals detected above relevant 95% protection assessment criteria
- Concentrations of acetic acid and formic acid detected above limits of reporting
- Concentrations of PFOS above limits of reporting but below 95% assessment criteria.

Conclusions

360 Environmental make the following conclusions based on the findings of this investigation:

- The GPR survey found no evidence supporting the presence of a historical landfill beneath the site. In this regard the human health risk associated with direct contact (dermal, accidental ingestion and inhalation) of subsurface landfill material is considered negligible.
- Based on groundwater flow direction to the northeast and southwest groundwater quality entering the site at MW03 is considered indicative of background water quality in the area.
- The site is mapped within an area of high potential aquatic GDE and moderate potential terrestrial GDE with the adjacent Lake Grace mapped as a high potential aquatic GDE.
- A review of Stage 1 data found concentrations of chemicals of potential concern were comparable.
- Nutrient and metals are ubiquitous and considered indicative of natural groundwater conditions at the site. Furthermore, the detections of both dissolved metals and nutrients in groundwater generally are reflective of the heavy metals and nutrients detected in soils during the Stage 1 DSI.
- Further to the above the presence of formic and acetic acid in several monitoring wells at the site are considered likely to be associated with the decomposition of organic matter at the site.
- The detections of PFOS at two locations were reported marginally above the LOR and are considered minor in nature. Potentially these detections could be attributed to the presence of fly tipped material however it is well known that PFAS compounds are widespread within the environment and as such ambient background concentrations may be expected at most locations. In addition, impacts have not migrated further down hydraulic gradient to MW01 and MW02 indicating the source is likely to be relatively minor.

Based on the above it is considered groundwater quality at the site reflects natural conditions to which both the terrestrial and aquatic GDEs, vegetation and native fauna are adapted to. In this regard the 95% protection exceedances detected in groundwater are not considered likely

to pose a risk to ecological receptors. The site, however, has been used extensively for fly tipping with the Stage 1 DSI reporting significant quantities of ACM present at the site. The presence of ACM under current site conditions is considered to pose a potential risk to human health.

Overall based on the outcomes of the Stage 2 DSI, data gaps relating to the presence of a historical landfill are considered closed.

Recommendations

Based on the conclusions the following recommendations are made:

- This Stage 2 DSI report should be submitted to the DWER for review to inform an updated classification of the site
- Development of a Remediation Action Plan presenting the strategy for clearing of all waste materials including ACM should be undertaken as soon as possible to mitigate potential human health risks and prior to development to avoid ACM sheets and fragments from being broken down further into 'fines' with the potential for fibre release from mechanical disturbance. The removal of the ACM material must be undertaken by an appropriately licensed asbestos removalist and disposed offsite to an appropriately licensed waste management facility who can accept the material as 'Special Waste – Type 1 (Asbestos)
- An environmental consultant should be engaged to oversee the removal of the waste materials and the ACM and conduct a site walkover following ACM clearance to validate that the ACM has been removed in accordance with DoH (2021) Guidelines for the Assessment, Remediation and Management of Asbestos-Contaminated Sites in Western Australia.

2.1 Bush Fire Advisory Committee

2.1.2 Terms of Reference

Adopted by Council on 21 October 2015.

2.1.3 Function

2.1.3.1 NAME

The name of the Committee shall be the Shire of Lake Grace Bush Fire Advisory Committee hereinafter referred to in its abbreviated form as BFAC.

2.1.3.2 **DISTRICT**

The BFAC shall operate within the local government boundaries of the Shire of Lake Grace.

2.1.3.3 GUIDING PRINCIPLES Nil

2.1.3.4 ESTABLISHMENT

The Committee is established pursuant to Section 5.8 of the Local Government Act 1995 and to Section 67 of the Bush Fires Act 1954.

2.1.3.5 **OBJECTIVES**

To make recommendations and advise Council on all matters relating to the *Bush Fires Act 1954, Section 67(1).*

To liaise with other emergency organisations and relevant bodies with regard to Fire and Emergency Management within the Shire of Lake Grace.

The Committee will advise the local government all matters relating to:

- (a) Preventing, controlling and extinguishing of bush fires
- (b) The planning of the layout of fire-breaks in the district
- (c) Prosecutions for breaches of the Bush Fire Act 1954
- (d) The formation of bush fire brigades and the grouping thereof under group brigade officers
- (e) The ensuring of co-operation and co-ordination of bush fire brigades in their efforts and activities
- (f) Any other matter relating to bush fire control whether of the same kind, as, or a different kind from, those specified.

2.1.3.6 **MEMBERSHIP**

- (a) One (1) Shire of Lake Grace Councillor as a member and one (1) Councillor as deputy
- (b) Community Emergency Services Manager
- (c) Chief Bush Fire Control Officer
- (d) One (1) Deputy Chief Bush Fire Control Officer
- (e) Three (3) Senior Bush Fire Control Officers

- (f) One (1) North Lake Grace Bush Fire Control Officer as a member and one (1) as a deputy
- (g) One (1) Lake Grace Town Bush Fire Control Officer as a member and one (1) as a deputy
- (h) One (1) South Lake Grace Bush Fire Control Officer as a member and one (1) as a deputy
- (i) One (1) North Newdegate Bush Fire Control Officer as a member and one (1) as a deputy
- (j) One (1) Newdegate Town Bush Fire Control Officer as a member and one (1) as a deputy
- (k) One (1) South Newdegate Bush Fire Control Officer as a member and one (1) as a deputy
- (I) One (1) Lake King Bush Fire Control Officer as a member and one (1) as a deputy
- (m) One (1) Varley Bush Fire Control Officer as a member and one (1) as a deputy
- (n) One (1) Mt Madden / Dunn Rock Bush Fire Control Officer as a member and one (1) as a deputy

The Chief Executive Officer and employees are not members of the committee.

The Chief Executive Officer or his/her nominee is to attend all meetings to provide advice and guidance to the committee.

The local government shall provide secretarial and administrative support to the committee.

2.1.3.7 ATTENDANCE BY GOVERNMENT AGENCIES

- The following are invited (non-voting) to attend meetings of the BFAC:
- (a) Department of Fire & Emergency Services District Officer Narrogin
- (b) Department of Biodiversity, Conservation and Attractions Management Officer

2.1.3.8 **REPORTING**

Reports and recommendations of each committee meeting shall be presented to the next ordinary meeting of the Council.

2.1.3.9 TENURE OF MEMBERSHIP

Shall be in accordance with the Local Government Act 1995, section 5.11

- 1) Where a person is appointed as a member of a committee under section 5.10(4) or (5), the person's membership of the committee continues until—
 - (a) the person no longer holds the office by virtue of which the person became a member, or is no longer the CEO, or the CEO's representative, as the case may be;
 - (b) the person resigns from membership of the committee;
 - (c) the committee is disbanded; or
 - (d) the next ordinary elections day, whichever happens first.
- 2) Where a person is appointed as a member of a committee other than under section 5.10(4) or (5), the person's membership of the committee continues until—
 - (a) the term of the person's appointment as a committee member expires;
 - (b) the local government removes the person from the office of committee member or the office of committee member otherwise becomes vacant;
 - (c) the committee is disbanded; or

(d) the next ordinary elections day, whichever happens first

2.1.3.10 DELEGATED AUTHORITY Nil

2.1.3.11 **COMMITTEE**

Chairperson

The members shall appoint the Chairperson and Deputy Chairperson of the BFAC.

<u>Secretary</u>

The Community Emergency Services Manager will fulfil the role of non-voting Secretary.

<u>Standing Ex-Officio Members</u> Nil

2.1.3.12 **MEETINGS**

<u>Annual General Meeting</u> Nil

Committee Meetings

The committee shall meet at least biannual.

Additional meetings shall be convened at the discretion of the presiding person.

<u>Quorum</u>

At least 50% of the members of the Committee.

<u>Voting</u>

Shall be in accordance with the Local Government Act 1995, Section 5.21.

5.21 Voting

- (1) Each council member and each member of a committee who is present at a meeting of the council or committee is entitled to one vote.
- (2) Subject to section 5.67, each council member and each member of a committee to which a local government power or duty has been delegated who is present at a meeting of the council or committee is to vote.
- (3) If the votes of a member present at a council or a committee meeting are equally divided, the person presiding is to cast a second vote.
- (4) If a member of a council or a committee specifically requests that there be recorded —

(a) his or her vote; or

(b) the vote of all members present

On a matter voted on at a meeting of the council or the committee, the person presiding is to cause the vote or votes, as the case may be, to be recorded in the minutes.

(5) A person who fails to comply with subsection (2) or (3) commits an offence.

Members are to vote by a show of hands on the Election of Positions to be recommended to the CEO.

<u>Minutes</u>

Shall be in accordance with the Local Government Act 1995, section 5.22

5.22 Minutes of council and committee meetings

- (1) The person presiding at a meeting of a council or a committee is to cause minutes to be kept of the meeting's proceedings.
- (2) The minutes of a meeting of a council or a committee are to be submitted to the next ordinary meeting of the council or the committee, as the case requires, for confirmation.
- (3) The person presiding at the meeting at which the minutes are confirmed is to sign the minutes and certify the confirmation.

A copy of the unconfirmed minutes shall be forwarded to all BFAC members within fourteen (14) days of the meeting for endorsement at the next meeting.

Who acts if no presiding member?

Shall be in accordance with the Local Government Act 1995, section 5.14

5.14 Who acts if no presiding member

- (1) If, in relation to the presiding member of a committee
 - (a) the office of presiding member and the office of deputy presiding member are vacant; or
 - (b) the presiding member and the deputy presiding member, if any, are not available or are unable or willing to perform the functions of presiding member,

then the committee members present at the meeting are to choose one of themselves to preside at the meeting.

<u>Meetings</u>

Meetings shall be generally open to the public pursuant to the *Local Government Act 1995, Section 5.23* and is not required to have questions from the public as there are no Council delegations.

Members interests to be disclosed

Members of the Committee are bound by the provisions of the *Local Government Act 1995, Section 5.65* with respect to disclosure of financial, impartiality or proximity interests.

Chief Bushfire Control Officer, Brigade and other reports

The Chief Bush Fire Control Officer is to provide a report to the meeting.

The Shire Community Emergency Services Manager shall provide a report to the meeting.

Each member brigade may provide a brigade report to the meeting.

Working groups

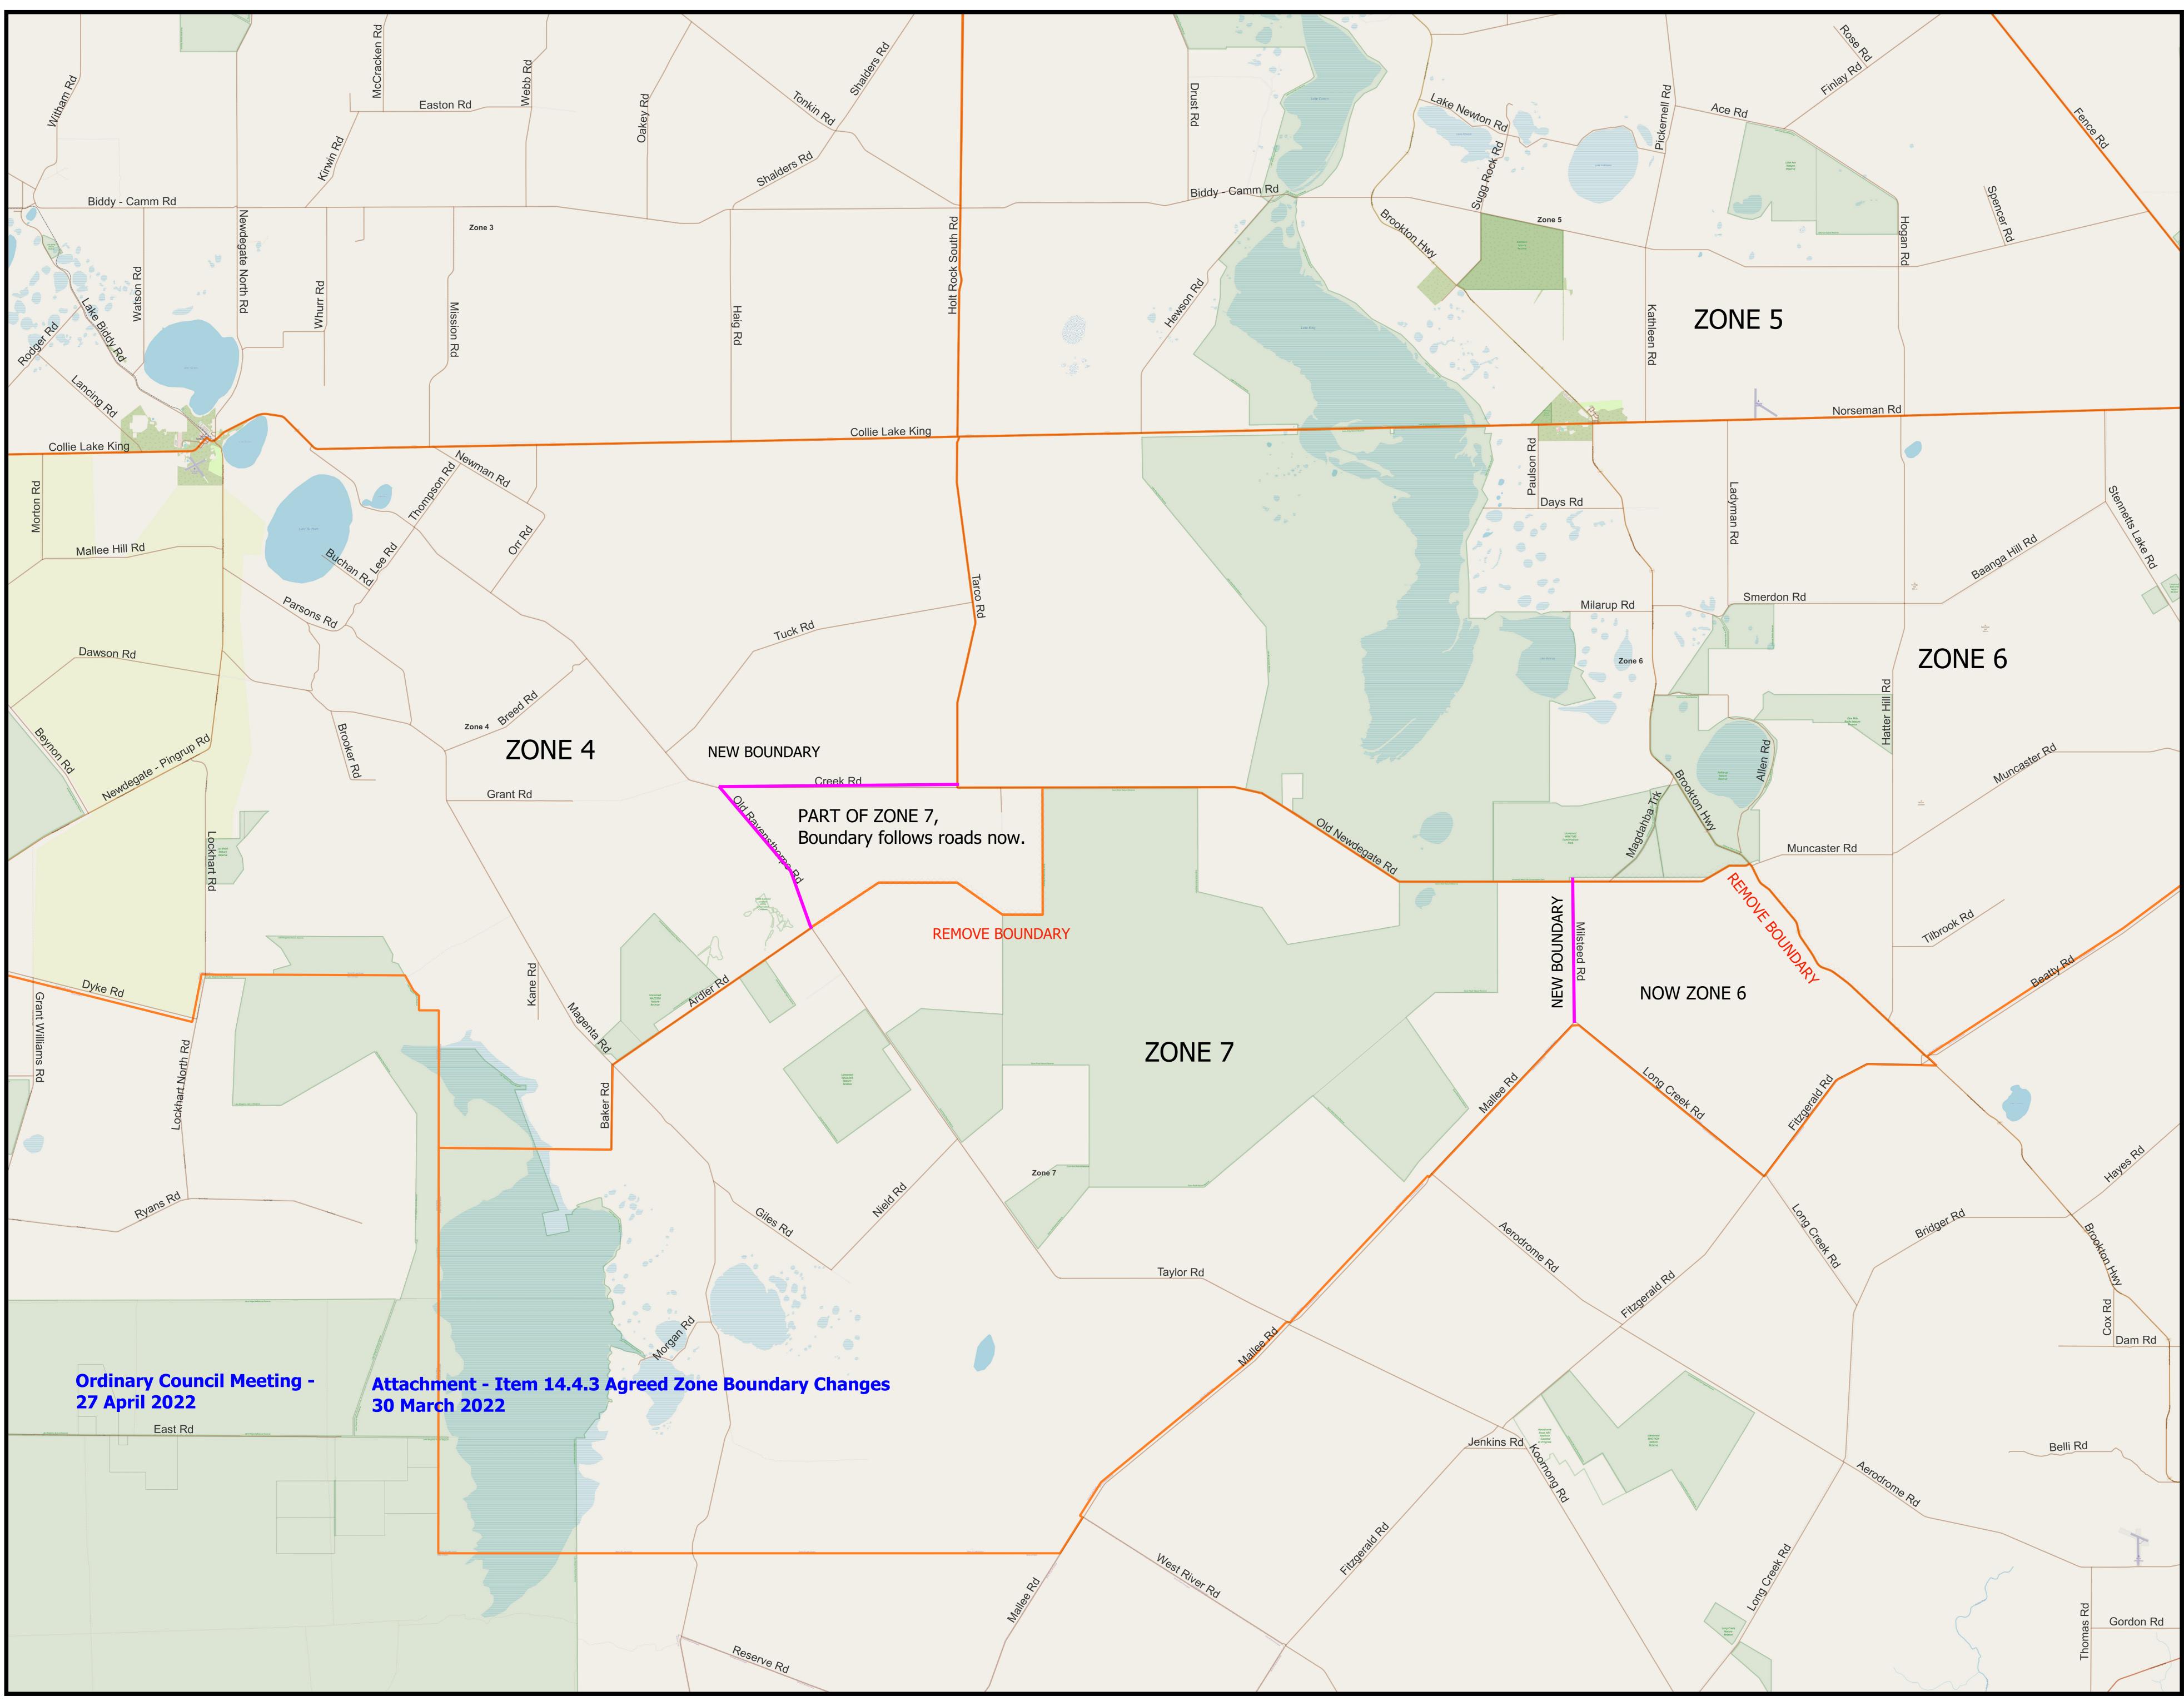

The BFAC may appoint any of its members to a working group to carry out specific tasks. A working group will undertake only those duties specified by the committee.

Deputations

The BFAC may invite any person or organisation to attend any meetings but such persons shall not be entitled to vote on any decision arising from such meetings.

Power of the Council

Nothing herein contained shall restrict the powers of Council.

The Shires of Lake Grace and Kent do not guarantee that this map is without flaw of any kind and disclaims all liability for any errors, loss or other consequence which may arise from relying on any information depicted. Roads and tracks may contain unmarked hazards and their surface condition is variable. Exercise extreme caution and drive to conditions on all roads.

AMENDMENT RECORD

No.	Date	Amendment Details	Ву
1	August 2010	Complete Re-write	LEMC
2	January 2014	Minor updates – contact details & name changes	M Owen Executive Officer
3	February 2016	Minor updates – contact details & name changes	P Roadley, Executive Officer
4	May 2018	Minor updates – contact details & name changes, Maps	CESM M Barnes, Executive Officer
5	October 2020 V 5	Corrected formatting issues. Major re-write. Move Glossary to appendix 15 Added the definitions of 'incident' and 'emergency' to the Scope. Added location of copy of Existing Plans & Arrangements to Table 1.1 Updated the name and location of relevant State Hazard Plans in Table 1.2. Updated 3.1 Emergencies Likely to occur with reference to new State Hazard Plans. Updated Department of Parks and Wildlife to Department of Biosecurity, Conservation & Attractions throughout the document. Updated 2.8 Emergency Risk Management to reflect the last risk assessment project carried out in November 2018. Updated demographic data to 2016 Census data. Removed 2006 Risk Matrix and replaced with 2018 Risk Register – risks requiring treatment. Moved the ECC information from 3.5 to appendix 11. Updated 3.7.1 Public Information & Warning Systems. Moved Part 7 Critical Contact List to Appendix 5. Updated Groups at Risk listing and moved to Appendix 3 Update Community Evacuation information Removed map of Australia and map of local government districts from Appendix 13. Added school bus route information.	S Lees LEMC Executive Officer
6	February 2022	Minor updates – contact details & name changes Updated heading formatting and linking Updated information highlighted in review process.	M. Castaldini, Executive Officer

The master copy of this document will be held by the Shire. Copies will be distributed to agencies listed in the distribution list and the Shire will ensure the most up-to-date copy of the plan is available on its website www.lakegrace.wa.gov.au. No other copies are to be made of this document.

When an amendment is made, the Shire will ensure that:

- the amendment is recorded in the 'amendment record' of the master document; and
- copies of such amendments are distributed to those as listed in the distribution list.

It is the responsibility of each agency or individual provided with a copy of this plan to keep it up to date and available to others within the agency.

1 Introduction

1.1 Incident or Emergency?

The term 'incident' is defined as 'the occurrence or imminent occurrence of a hazard' in the State EM Glossary. An incident is generally managed by Hazard Management Agencies (HMAs) and Combat Agencies as part of their day-to-day business. However, an incident may escalate and lead to an emergency.

The term 'emergency' is defined as 'the occurrence or imminent occurrence of a hazard which is of such a nature or magnitude that it requires a significant and coordinated response' (s.3 Emergency Management Act 2005).

1.2 Authority

The Arrangements have been prepared in accordance with s.41(1) of the *Emergency Management Act 2005* and endorsed by the Lake Grace Local Emergency Management Committee and approved by the Shire of Lake Grace.

1.3 Community Consultation

The Arrangements have been developed in consultation with the Local Emergency Management Committee (LEMC) as a representative body of the community of Lake Grace.

1.4 Document Availability

A copy of this document is available via the Shire of Grace website (<u>www.lakegrace.wa.gov.au</u>) or in hard copy for the Shire Office.

1.5 Aim

The Arrangements describe the local roles, responsibilities and actions required as part of planning and preparation for, responding to, and recovering from an emergency impacting on the communities within the Lake Grace shire.

1.6 Purpose

The purpose of these emergency management arrangements is to set out:

- a) The shire's roles and responsibilities under the State Emergency Management Framework;
- b) the roles and responsibilities of public authorities and other persons (emergency management agencies) involved in the management of the emergencies likely to impact the local government district;
- c) the Shire's policies for emergency management;
- d) information about the coordination of emergency operations and activities performed by emergency management agencies;
- e) a description of emergencies that are likely to occur in the local government district;
- f) strategies and priorities for emergency management in the local government district (based on assessment of risk);
- g) other matters about emergency management in the local government district prescribed by the regulations; and
- h) other matters about emergency management in the local government district the local government considers appropriate". (s.41(2) of the Act).

1.7 Scope

These Arrangements details the plans that are in place to deal with local emergencies, consistent with State emergency management legislation, policies, procedures and guidelines.

This document:

- a) applies to the local government district of the Shire of Lake Grace (the Shire);
- b) provides an overview of the relationship between state and local emergency management arrangements;
- c) covers arrangements where the Shire is the Combat Agency/Controlling Agency for an emergency;
- d) covers arrangements where the Shire provides support to Hazard Management Agencies or Combat Agencies in the event of an emergency;
- e) details the Shire's capacity to provide resources in support of an emergency, while still maintaining business continuity; and
- f) provides details of the Shire's responsibility in relation to recovery management.

1.8 Area Covered (Context)

The Shire of Lake Grace (*the Shire*) is located 354 km from Perth in the southern wheatbelt. The Shire has a population of 1,456 people, consists of five towns (Lake Grace, Newdegate, Lake King, Varley and part of Pingaring) and covers 11,885 km². Newdegate is 52 km east of Lake Grace and Lake King and Varley are 115 and 120 km respectively from Lake Grace.

The town of Lake Grace is the Shire's regional service centre and gathering place for the surrounding smaller communities.

Access to these towns is mainly by road; however, there is an airstrip at Lake Grace and authorised landing areas at Newdegate, Lake King and Varley. The Lake Grace-Newdegate and Lake Grace-Hyden railway lines are used primarily for the transportation of grain.

The Shire owns and manages a number of public facilities such as halls, libraries, swimming pools, public toilets, and sporting and recreation grounds and is responsible for the provision of sewerage and waste disposal services within the municipality.

Tourists regularly use the main roads through the Shire along with heavy vehicles carrying goods to and from Esperance. With the First Quantum Minerals mine site expanding at Ravensthorpe, larger than normal loads are transported through the towns of Lake Grace, Newdegate and Lake King with some loads carrying dangerous goods.

During harvesting season grain carting vehicles frequently use the road and, when combined with the tourist traffic, these roads can become hazardous.

The ABS amalgamates the Gross Value of Agricultural Production (GVAP) for the statistical area of Kulin, which includes the Shires of Lake Grace, Dumbleyung, Kondinin, Wickepin and Kulin. The GVAP for this area for the period of 2010-11 was estimated to be \$283 million. It is estimated that 62% of this value is generated from broad acre crops with the remaining \$105 million being generated from livestock products, primarily sheep with the beef industry being a minor component.

Based on the area of land used by agriculture across the statistical area, it is estimated that 41% (\$116 million) of the GVAP is attributable to the Shire of Lake Grace.

1.9 Special Considerations

During various times of the year the following may have effect on the availability of resources, volunteers or the number of people in a township.

- School Holidays
- Bush Fire Season September April
- Seeding April July
- Harvest mid-October December
- Newdegate Field Days 1st Wednesday and Thursday in September
- Lake King Kart Club Annual Open Event August

Specific details can be recorded in Appendix 7 as required.

2 Emergency Management Framework

2.1 State Emergency Management Principles

The State Emergency Management Committee's (SEMC) Emergency Management Framework is underpinned by the <u>SEMC Emergency Management Principles</u>.

2.1.1 Risk Management Approach:

Applying a consistent and comprehensive approach to emergency management (EM) across the state aids effective decision making, facilitates appropriate resource allocation and allows for a proactive approach towards EM.

2.1.2 Shared Responsibility for Resilience

Increasing resilience to emergencies is the collective responsibility of all sectors of society, including all levels of government, business, the non-government sector and individuals. Given the increasing severity and occurrence of natural hazards, all these sectors need to be empowered and work together with a united focus and a shared sense of responsibility to keep hazards from becoming emergencies.

2.1.3 All Hazards Approach

The 'all hazards' approach assumes the functions and activities applicable to one hazard are often applicable to a range of hazards. The all hazards approach increases efficiency by recognising and integrating common emergency management elements across all hazard types. It does not, however, prevent the development of specific plans and arrangements for hazards that require a specialised approach.

2.1.4 Graduated Approach

The 'graduated' approach is based on decisions being made at the lowest appropriate level (existing command, control and coordination arrangements apply); and where emergency management activities exceed the capability of the local community, support may be obtained from the district, state, interstate, national or international levels, as appropriate.

2.1.5 All Agencies Coordinated and Integrated Approach

The 'all agencies coordinated and integrated' approach recognises that no one agency can address all of the impacts of a particular hazard. It is necessary for a lead agency to coordinate the activities of the large number of organisations and agencies that are involved. These can be drawn from across all levels of government, non-government, volunteer organisations and the private sector.

2.1.6 Continuous Improvement

Continuous improvement, including incremental and transformational change, is undertaken systematically as an integral part of emergency management measures and practices to improve outcomes.

2.1.7 Community Engagement

Effective and timely communication and engagement with the community is a critical and continuous process before, during and after an emergency.

2.1.8 Integrated Information Management

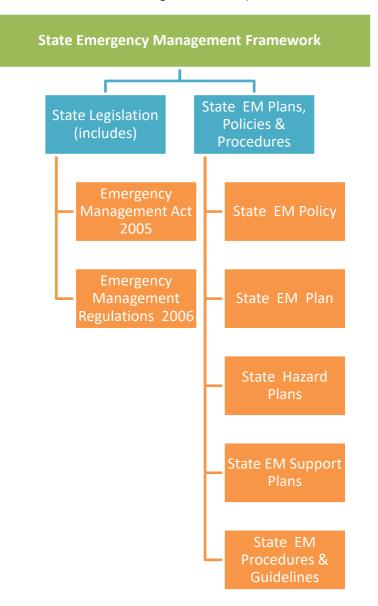

Information is critical to emergency management. The collation, assessment, verification and dissemination of relevant and appropriate information must be underpinned by integrated information management systems that adhere to governance and accountability standards.

2.2 State Emergency Management Framework

The State Emergency Management Committee (SEMC) is responsible for preparing state emergency management (EM) policies that provides Western Australia with a strategic framework for emergency management.

WA state legislation and SEMC EM plans, policies, procedures and guidelines define the roles and responsibilities of emergency agencies, including local government, across the emergency management spectrum of Prevention, Preparedness, Response and Recovery (PPRR).

This diagram shows relevant state EM legislation and plans:

2.2.1 State Emergency Management Legislation

The *Emergency Management Act 2005* and the *Emergency Management Regulations 2006*, is the overarching State EM legislation, which provides for prompt and coordinated organisation of EM in this State.

It formally establishes the SEMC and other bodies (such as the State Emergency Coordination Group and the SEMC subcommittees), and details roles and responsibilities at a State, district and local level in relation to the four aspects of emergency management: Prevention, Preparedness, Response and Recovery (PPRR). It also provides for additional powers to be available during emergencies.

In addition to the *EM Act* and *EM Regulations*, there is a range of additional legislation and codes relevant to hazard prevention and mitigation. A guide is available on the <u>SEMC website</u>.

More details of regarding legislation, see the <u>Legislation WA</u> website.

2.2.2 State Emergency Management Plan

This State EM Plan details the arrangements across PPRR for all-hazards.

The SEMC Business Unit (that sits within DFES) is responsible for the development, maintenance and review of this Plan, in consultation with relevant stakeholders.

2.2.3 State Hazard Plans (Westplans)

Each defined and prescribed hazard has a dedicated State Hazard Plan (Westplan) that outlines the arrangements for the management of that hazard across PPRR.

A list of State Hazard Plans (and links to individual plans) relevant to hazards that may occur within the Shire of Lake Grace are contained in Appendix 2.

Local government has roles and responsibilities allocate to it under these plans. For a summary of the Shire's responsibilities (for hazards that are likely to occur in the district), refer to Appendix 2.

2.2.4 State Support Plans

There is a range of support functions and services that support EM agencies across all-hazards. This includes emergency public information, welfare and health support. These services may be required regardless of the type of hazard that occurs. Refer to Appendix 3 for a list of State Support Plans.

The support plans allocate roles and responsibilities to local government. For a summary of the Shire's responsibilities, refer to Appendix 3.

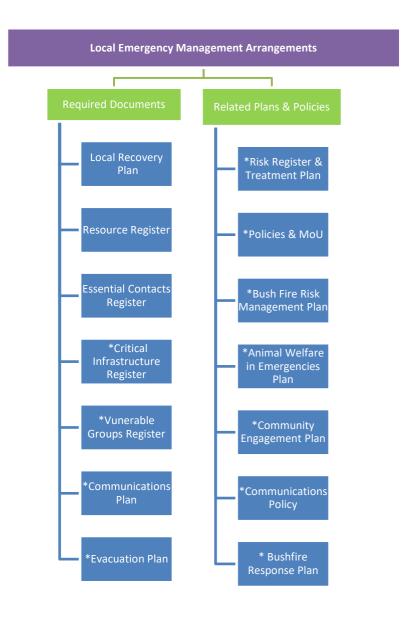

2.3 LOCAL GOVERNMENT EM FRAMEWORK

Local governments are required, under the EM Act, to:

- 1. ensure that effective local emergency management arrangements (LEMA) are prepared and maintained for its district;
- 2. establish one or more local emergency management committees (LEMC) for the local government's district;
- 3. manage recovery following an emergency affecting the community in its district; and
- 4. perform other functions given to local government under the EM Act [s.36(c)] as outlined in <u>State Emergency Policy Appendix A</u>; and
- 5. under section 20(4) of the EM Act carry out other EM activities as directed by the SEMC or prescribed in the EM Regulations.

2.4 LOCAL EMERGENFY MANAGEMENT ARRANGEMENTS (LEMA)

The Local Emergency Management Arrangements is a series of documents that may comprise the following: (* to be developed for Shire of Lake Grace):

2.4.1 Local EM Plans & Policies

The Shire may have related plans and polices in place that should be read in conjunction with this document. Please refer to Appendix 4 for details.

3 PREVENTION & PREPAREDNESS

"Measures identified and implemented to eliminate or reduce the incidence or severity of emergencies."

"Preparation for response to an emergency."

3.1 LOCAL GOVERNMENT PREVENTION RESPONSIBILITIES

Local government, under the provisions of the State EM Plan, is responsible for the following:

- Identify the sources of risk that may impact upon the district of the local government through the emergency risk-management process.
- Establish, administer and maintain a Local Emergency Management Committee (LEMC).
- Develop, maintain, review and test the LEMA and local recovery plan.
- Identify buildings owned and operated by the local government suitable for the purpose of community evacuation during an emergency event.
- Administer legislative requirements under the *Bush Fires Act 1954* and Regulations relating to the management of bushfire preparedness and response including:
 - issuing fire break notices;
 - fuel load management;
 - issuing permits to burn the bush;
 - o review of restricted and prohibited burning times; and
 - o issuing and observing harvest and vehicle movement bans.
- Develop and maintain Emergency Risk Management (ERM) plans for hazards relevant to their locality. The ERM plans are to be developed at a local scale on a prioritised basis as lead and administered by the local governments and Local Emergency Management Committee (LEMC). (*State EM Procedure 1*)

3.2 EMERGENCY RISK MANAGEMENT

Risk can be described as the chance of something happening that will have of harmful consequences, arising from the interaction of hazards, communities and the environment.

Risk is measured or rated in terms of the consequences that may arise if the risk occurs and the likelihood of the risk occurring.

Emergency risk management a systematic process that considers the likely effects of hazardous events and the controls by which they can be minimised.

3.2.1 Shire of Lake Grace Emergency Risk Management Plan

The Shire carried out an emergency risk management assessment process in November 2018. The hazards that were considered as likely to occur and risk assessed were:

- Animal or plant pests or disease
- Fire
- Flood
- Storm
- HAZMAT
- Crash (Rail and Road)

The risks associated with the above hazards that were rated 'extreme' or 'high' and for which a treatment plan should be considered are listed in Appendix 12. The treatment plan for those risks is to be developed by the Shire with the assistance of the LEMC.

3.3 LOCAL EMERGENCY MANAGEMENT COMMITTEE

The Shire's Local Emergency Management Committee (LEMC) primarily has planning function. Its functions are defined under section 39 of the EM Act:

- advise and assist the local government in ensuring LEMA are established for its district;
- liaise with public authorities and other persons in the development, review and testing (through exercise or activation) of LEMA; and
- carry out other EM activities as directed by the SEMC or prescribed in the EM Regulations

The Shire of Lake Grace LEMC operates in accordance with:

- <u>State EM Policy 2.5 'Emergency Management in Local Government Districts'</u> and
- <u>State EM Procedure 7 Local Emergency Management Committee</u>.

The LEMC aims to meet quarterly or more frequently if required. Meetings are scheduled for the second Thursday of February, May, August and November.

The LEMC will comply with the annual reporting requirements contained in <u>State EM Preparedness</u> procedures 17 Annual Reporting

3.3.1 LEMC Roles

Key LEMC roles include:

- Chair (elected member of the Shire of Lake Grace Council)
- Deputy Chair (Local Emergency Coordinator OIC of Lake Grace Police Station)
- Executive Officer (Shire of Lake Grace officer)

3.3.2LEMC Executive Officer:

Provide executive support to the LEMC by ensuring the provision of secretariat support including:

- a) Meeting agenda;
- b) Minutes and action lists; correspondence;
- c) Maintain committee membership contact register;
- d) Coordinate the development and submission of committee documents in accordance with legislative and policy requirements including;
- e) Annual Report; Annual Business Plan;
- f) Maintenance of Local Emergency Management Arrangement;
- g) Facilitate the provision of relevant emergency management advice to the Chair and committee as required; and
- h) Participate as a member of sub committees and working groups as required;

The Executive Officer shall have the resources register checked and updated on an annual basis, but ongoing amendments may occur at any LEMC meeting.

3.3.3 LEMC Membership

The Shire, in consultation with LEMC member agencies, may determine the term and composition of LEMC membership.

The LEMC is made up of representatives from the local community and local agencies with emergency management and support responsibilities including:

- Department of Fire and Emergency Services (DFES)
- WA Police Force

- Shire of Lake Grace officers engaged in key roles and functions affecting EM (e.g. community services, engineering services, corporate services or planning)
- Department of Communities
- WA Country Health Service Lake Grace
- St John Ambulance WA Ltd
- Department of Primary Industries and Regional Development
- Department of Biosecurity, Conservation & Attractions
- Department of Education
- Main Roads WA
- Western Power
- Water Corporation

A full LEMC membership list contact details can be found in Appendix 6 – LEMC Membership.

4 **RESPONSE**

Combating of the effects of an emergency, provision of emergency assistance for casualties, reduction of further damage and help to speed recovery' (definition of 'EM', s. 3 EM Act).

The State EM Plan, State Hazard Plans and State Support Plans establish the roles and responsibilities for the response to an emergency.

Public authorities with assigned response roles under the State's EM framework must support the HMA in response to an emergency

4.1 LOCAL GOVERNMENT RESPONSE RESPONSIBILITIES

Local government, under the provisions of the State EM Plan, is responsible for the following:

- Assist and support to the HMA, combat agencies and Support Organisations during the response phase of an emergency.
- Actively participate in ISG meetings and provide advice to the HMA and Support Organisations relating to the LEMA.
- As a Combat Agency for fire, carry out the activities of fire suppression on lands vested in the local government.

4.1.1 Integrated Approach

During an emergency event, no single agency can manage all the impacts of a particular hazard. Therefore, the SEMC EM Policy calls for an *'all-agencies coordinated, integrated and graduated approach'* to emergency management.

Emergency agencies' responsibilities for responding to emergency events are defined in the *EM Regulations 2006* and include Hazard Management Agencies, Combat Agencies and Support Organisations.

4.1.2 Hazard Management Agency (HMA)

A Hazard Management Agency (HMA) is responsible for the management of emergencies that are caused by its prescribed hazard(s). Hazards are allocated to HMAs under Part 3 of the *Emergency Management Regulations 2006* (the EM Regulations).

HMAs may be responsible for one or more hazards. For example, the Department of Fire and Emergency Services is the HMA for many types of hazards including fire, storm, flood and cyclone.

The functions of the HMAs in an emergency are to:

- Undertake responsibilities that are allocated to it under the Regulations
- Appoint Hazard Management
- Declare / Revoke Emergency Situation
- Coordinate the development of state emergency plans their prescribed hazard(s)
- Ensure effective transition to local government from response to recovery.

4.1.3 **Combat Agency**

A combat agency responds to an emergency and the HMA and Combat Agency may be the same. However, the Combat Agencies for bushfire are DBCA where an incident occurs on land owned or managed by DBCA and local government where the fire occurs on any other land within its municipality (except if within a gazetted fire and rescue district).

Combat Agencies are prescribed in Part 5 of the *EM Regulations*.

4.1.4 **Controlling Agency**

The Controlling Agency is responsible for command and control of response activities and the HMA and Controlling Agency may be but is not always, the same. For example, the Controlling Agency for bushfire may be the DBCA if an incident has occurred on land owned or managed by DBCA or local government where a local government bush fire brigade has responded to a fire within its municipality.

The Controlling Agency may request that control of an incident be handed over to the HMA or another Combat Agency if required, usually relating to complexity. (See Bush Fires Act 1954, s.13)

4.1.5 Incident Controller

The Controlling Agency must appoint an Incident Controller (IC). The IC is responsible for:

- the overall control of an incident;
- Leading the Incident Management Team (IMT);
- Assessing the incident;
- Ensuring the accuracy of the emergency public information, approving its release in coordination with all relevant agencies and terminating its broadcast;
- In consultation with the HMA, ensuring effective strategies for evacuation are implemented; and
- Management of traffic during an emergency response.

If it is not clear who the Controlling Agency should be under existing law or agency responsibilities, and a satisfactory agreement cannot be reached, then the WA Police shall assume control of the incident until such time as the appropriate Controlling Agency can be determined.

4.1.6 **Support Organisation**

A support organisation a public authority or other person who or which, because of the agency's functions under any written law or specialized knowledge, expertise and resources is responsible for providing support functions in relation to that agency. Examples include Department of Communities having responsibility for establishing a welfare centre.

It is necessary for a lead agency to coordinate the activities of the large number of organisations and agencies that are involved. These can be drawn from across all levels of government, non-government, volunteer organisations and the private sector.

4.2 OVERVIEW OF LOCAL ROLES & RESPONSIBILITIES

4.2.1Local Emergency Coordinator

The local emergency coordinator for a local government district has the following functions [s.37(4) of the Act]:

- a) to provide advice and support to the LEMC for the district in the development and maintenance of emergency management arrangements for the district;
- b) to assist hazard management agencies in the provision of a coordinated response during an emergency in the district; and
- c) to carry out other emergency management activities in accordance with the directions of the State Emergency Coordinator.

4.3 INCIDENT SUPPORT GROUP (ISG)

The role of the Incident Support Group (ISG) is to provide support to the Controlling Agency.

The ISG is convened by the Incident Controller or the Local Emergency Coordinator in consultation with the Controlling Agency to assist in the overall coordination of services and information during a major incident. Coordination is achieved through clear identification of priorities by agencies sharing information and resources.

4.4 TRIGGERS FOR THE ACTIVATION OF AN ISG

The triggers for an Incident Support Group, defined in State EM Policy 5.2.2 Incident Management systems, are:

- If a Level 2 incident is declared, the Controlling Agency must consider the establishment of an Incident Support Group (ISG).
- If a Level 3 incident is declared, the Controlling Agency must establish an ISG.
- ISG is activated by the IC.

4.5 MEMBERSHIP OF AN ISG

The ISG is made up of representatives of agencies that provide support to the Controlling Agency. As a rule, the Local Recovery Coordinator should be a member of the ISG from the onset, to ensure consistency of information flow and transition into recovery.

The representation on this group may change frequently, depending upon the nature of the incident, agencies involved and the consequences caused by the incident. Agencies supplying staff for the ISG must ensure that their representative has the authority to commit resources and/or direct tasks.

Coordination is achieved through clear identification of priorities by agencies sharing information and resources.

4.6 FREQUENCY OF MEETINGS

Frequency of meetings will be determined by the Incident Controller and will generally depend on the nature and complexity of the incident. There should be at least one meeting per incident.

4.7 EMERGENCY COORDINATION CENTRE (ECC) INFORMATION

The Emergency Coordination Centre (ECC) is where the Incident Support Group meets during an emergency and provides a focal point for a coordinated approach.

Please see the table in Appendix 11 for suitable locations:

4.8 PUBLIC INFORMATION AND MEDIA MANAGEMENT

Communities threatened or impacted by emergencies have an urgent and vital need for information and direction. Such communities require adequate, timely information and instructions in order to be

aware of the emergency and to take appropriate actions to safeguard life and property. The provision of this information is the HMA's responsibility. All public messages are to be approved by the Incident Controller before being releases.

Individual agencies may want to issue media releases for their areas of responsibility (e.g. Water Corporation on water issues, Western Power on power issues, etc.) however the release times, issues identified and content shall be coordinated through the ISG to avoid conflicting messages.

Animal welfare issues and information should be included in any public information bulletins, as appropriate.

4.8.1 **Public Information and Warning Systems**

One of the most critical components of managing an incident is getting information out to the public in a timely and efficient manner.

In WA, the emergency warning system comprises three levels, as displayed on the diagram below.

Warnings are disseminated via the DFES Emergency Information Line (recorded information dial 13 33 37) and placed on the Emergency WA website at <u>www.emergency.wa.gov.au</u>.

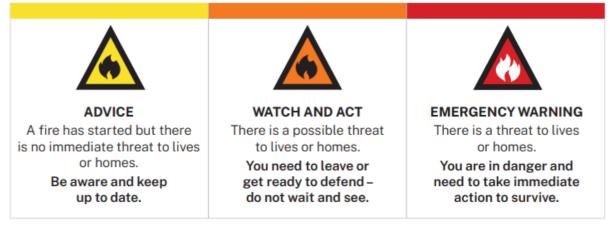

DFES managed incidents and local government managed fires within the district may utilise DFES Media & Public Affairs, including the hotline to inform people of current incident. Please refer to Appendix 5 – Critical Contacts for current DFES contacts.

ABC Radio is the official emergency broadcaster, but other media outlets may also broadcast emergency warnings and messages.

The ABC broadcast on 558AM and 720AM

Please refer to Appendix 5 – Critical Contacts for current media contacts.

For more information see <u>State Support Plan – Emergency Public Information</u>.

4.8.2 LOCAL SYSTEMS

The Shire of Lake Grace manages a SMS system that may be a useful tool for getting information into the community. Messages are sent to people who have subscribed to the service.

Access to this system can be arranged by contacting Shire of Lake Grace. Please refer to Appendix 5 – Critical Contacts for current Shire contacts.

Shire of Lake Grace staff must adhere to the any public communication policies and procedures in place.

4.9 Impacts from Utility Outages

Impacts may also present from Utility Outages to Mains supplied water / electricity / communication networks within the local area. Each provider has business continuity plans in place to provide redundancies for service coverage. Where not possible to provide a redundancy, there are plans to

provide alternate sources. E.g. Water impacts are supported by trucking in water and supply of bottled drinking water.

4.10 FINANCIAL ARRANGEMENTS - RESPONSE

The Shire of Lake Grace recognises State Emergency Management Policy 5.12 "Funding for Emergencies Responses", which outlines the responsibilities for funding during a multi-agency emergency.

The Shire of Lake Grace is committed to expending such necessary funds within its current budgetary constraints as required to ensure the safety of its residents and visitors. The Chief Executive Officer should be approached immediately during an emergency event requiring resources.

It is recognized that the HMAs and Combat Agencies may require use of the Shire's resources and assistance in an emergency situation. The Shire of Lake Grace is committed to providing this assistance and support if the required resources are available.

4.11 Community Evacuation

Evacuation is the immediate and urgent movement of people away from a threat or actual occurrence of a hazard or emergency to a place of safety. Evacuating people and/or animals from an area threatened or affected by a hazard is a strategy that may be used to mitigate the potential loss of, or harm to, life.

The decision to evacuate will be based on an assessment of the nature and extent of the hazard, the anticipated speed of onset, the number and category of people to be evacuated, evacuation priorities and the resources available.

Experience has shown that the evacuation of residents may not always be the optimum solution to managing the risk. Therefore, alternative strategies such as shelter in place, quarantine and/or the control or restriction of movement should be considered where appropriate.

The evacuation process comprises five stages:

4.12 DECISION TO EVACUATE

The Controlling Agency (where authorised by the HMA) has overall responsibility for the management of evacuation during an incident and will determine if the evacuation is to be recommended (voluntary) or directed (compulsory).

During an emergency event or state of emergency (declared under the EM Act 2005), the Controlling Agency must comply with the directions of the relevant HMA and the State Emergency Coordinator (SEC).

An Incident Controller who is not an HMO, Authorised Officer or Police Officer DOES NOT HAVE the power to make a **directed evacuation** during an emergency or declared state of emergency.

A directed evacuation may only be made by:

- Hazard Management Officers (i.e. officers or employees of the HMA, authorised under s.55 of the EM Act 2005, to act as hazard management officers during an emergency situation declared by that HMA)
- an Authorised Officer (under legislation other than the EM Act, such as s.14 of the Bush Fires Act 1954); or
- a police officer.

When considering evacuation, the Department of Communities (herein Communities) must be consulted during the planning stages. When the IC has decided that an evacuation of people or animals is necessary, a Welfare Centre must be established.

For details, please refer to the Department of Communities *Local Emergency Welfare Plan for the Shire* of Lake Grace.

4.13 EVACUATION WARNINGS

The IC is to provide community warnings and timely advice on the likely threat of an emergency to assist community members in recognising the threat and being able to make an informed decision as to whether to move to another location. Community warnings should detail the actions required to be taken by the community.

This information should include:

- The areas under threat.
- If it is safe to leave or shelter in place.
- If it safe to leave, the direction people should leave in.
- Details of any road closures.
- Location of welfare centre(s).
- Information for animal owners (e.g. can animals be brought to a welfare centre).

When considered necessary the Controlling Agency may request, through the HMA, the use of warning systems such as the SEWS or the Emergency Alert Telephone Warning System (emergency alert).

For more information see section 4.8 Public Information And Media Management.

4.14 Withdrawal

4.14.1 Self-Evacuation

Self-evacuation is the self-initiated, spontaneous movement of individuals, families or community groups when threatened by an emergency. As far as is practicable, the IC should provide sufficient, timely and relevant information to assist community members in making an informed decision to self-evacuate.

4.14.2 Evacuation

For either a recommended or directed evacuation, the Controlling Agency or person carrying out the evacuation will advise community members of the most suitable location that they should evacuate to, based on the prevailing situation.

Recommended Evacuation (Voluntary)

A recommended (voluntary) evacuation will be made by the Controlling Agency or other authorised officer when there is a possible threat to lives or property, but it is not believed to be imminent or significant and the community is considered to have the capacity and capability to make an informed decision.

Once a decision has been made to evacuate an area, the IC in consultation with the HMA, must ensure that effective communication strategies are implemented and maintained for the duration of the emergency. See section 4.8 Public Information And Media Management for more information.

Directed Evacuation (Compulsory)

A directed evacuation may only be made by an HMO, Authorised Officer or police officer during an emergency situation or state of emergency using powers under the EM Act (or other relevant legislation).

A directed evacuation is most likely to occur where members of the community at extreme risk do not

have the capacity to make an informed decision or when injury or loss of life is imminent.

The Controlling Agency is to provide clear instruction to persons conducting the evacuation with respect to what action should be taken where a person refuses to evacuate. The Controlling Agency is to ensure, as far as practical, that those who refuse to evacuate understand the risks of staying and can make an informed decision.

See section 4.8 Public Information And Media Management for more information.

4.15 Shelter

Shelter is the provision of temporary respite for evacuees and includes immediate sheltering, temporary sheltering and temporary housing.

When considering appropriate alternatives for shelter, the Controlling Agency should consider, as far as practicable, the most appropriate types of shelter for a specific incident. This may include:

- shelter in place where this is the safest or most appropriate option for the hazard, with consideration for advising additional action to increase personal safety;
- with family, friends or other accommodation outside the affected area if it is safe to leave (many members of the community will choose to do this if they have the option to do so);
- assembly area either for a known short-term evacuation or as a temporary stopping point before moving on to an evacuation centre;
- evacuation centre selected from suitable locations detailed in Appendix 11 Welfare Centres;
- specialist facility for evacuees with additional care needs (such as a hospital or aged-care facility);
- refuge if available in the affected area and appropriate to withstand the hazard;
- place of last resort a place that may provide some protection but with no guarantee of safety, and that will not be staffed by agency personnel.

4.16 Return

The IC, in consultation with the HMA, is responsible for the provision of timely and accurate situational information to the displaced community (e.g. current activities being undertaken, timeframe for return of community and assistance available to evacuees) and should ensure there is an effective plan in place for returning the displaced community, including provision for at risk persons.

The return phase of evacuation may be executed in stages and should be subject to planning. This should include issues such as community safety, restoration of essential services and provision of welfare support services.

The Controlling Agency should manage any risk from other (non-prescribed) hazards (e.g. structural integrity, site contamination, hazardous materials and health threats) arising from the emergency, before returning a community following evacuation.

4.17 EVACUATION PLANNING

4.17.1 **Pre-evacuation Planning**

Planning an evacuation is dependent on many factors, including the nature and extent of the hazard, the predicted speed of onset, the number and category of people at risk from the hazard, possible safe evacuation routes and the resources available.

Some of these factors will be unknown and cannot be planned for in advance of an emergency. However, identifying resources, persons and communities at risk, critical contacts and resources can assist the Controlling Agency to develop effective operational evacuation plans.

For more information, refer to Appendix 9 - Pre-Event Evacuation Planning. 4.17.2 Evacuation Planning - Operational

Under the *Emergency Management Act 2005*, for a recommended evacuation, the IC will generally develop the operational evacuation plan.

For a directed evacuation, the operational evacuation plan will generally be completed by the Hazard Management Officer (authorised by the HMA) or Authorised Officer (authorised by the SEC).

For more information, refer to Appendix 10 - Operational Evacuation Planning

There are no animal management facilities available in the Shire of Lake Grace. While assistance animals are allowed to accompany their human into a welfare centre, alternative arrangements will need to be made for domestic pets and larger animals. The Shire has developed a plan for animal welfare in emergencies to aid in the support of domestic pets and larger animals.

4.18 WELFARE

The Department of Communities (Communities) has the role of managing welfare under State Support Plan Emergency Welfare. The Department is responsible for the provision of six key functions;

- 1) Emergency Accommodation
- 2) Emergency Catering
- 3) Emergency Clothing & Personal Prerequisites
- 4) Personal Services
- 5) Registration & Enquiry
- 6) Financial Assistance

This list should be read in conjunction with <u>State Support Plan - Emergency Welfare</u> and the Local Emergency Welfare Plan – Shire Grace.

4.19 ACTIVATION OF WELFARE ARRANGEMENTS

If welfare centres or welfare services are needed for an incident, the Controlling Agency must notify and consult with the Department of Communities on:

- 9621 0400 or 0429 102 614 (during office hours) or
- 1800 199 008 (after hours Crisis Care).

Please note Communities will not be responsible for managing costs associated with a welfare response if they have not been activated through the correct channel.

4.20 LOCAL WELFARE COORDINATOR / DISTRICT EMERGENCY SERVICES OFFICER

The Local Welfare Coordinator for the Shire of Lake Grace is the Department of Communities' District Emergency Services Officer, Department of Communities in Northam. Please refer to Appendix 5 - Critical Contacts for current Communities' contacts.

4.21 LOCAL WELFARE LIAISON OFFICER

The Local Welfare Liaison Officer is a Shire employee who is responsible for coordinating the Shire's welfare response, including the management of emergency welfare centres such as building opening, closing, security and maintenance and liaising with the Local Welfare Coordinator.

It is important to acknowledge that it may take some time for Communities' staff to arrive so Local Welfare Liaison Officer may be responsible for the initial set-up of the welfare centre must be prepared to respond appropriately.

The Local Welfare Liaison Officer's contact details are contained in Appendix 5 – Critical Contacts.

4.22 STATE & NATIONAL REGISTRATION & ENQUIRY

Under the State Emergency management arrangements Communities has the delegated responsibility for registration and reunification. In a large event where people are evacuated, displaced or separated, the National Registration and Inquiry System is activated to assist in locating impacted people, reuniting families and answering inquiries from family and friend. Communities has reciprocal arrangements with the Australian Red Cross to assist with both the registration and inquiry processes. Please note that there is no Red Cross available in the Shire of Lake Grace.

4.23 WELFARE CENTRES

Please refer to Appendix 11 for the location of suitable venues that can be established as Welfare Centres.

4.24 MANAGING VOLUNTEERS AND OFFERS OF SUPPORT

Public generosity and care during and following an emergency plays a significant role in individual and community recovery. It reflects broader community sentiment and helps those affected to feel supported and more positive about the rebuilding task ahead. The Shire encourages the donation of money to approved fundraising agencies because it provides flexibility and choice to meet immediate needs. It also circulates in the affected community stimulating faster recovery for the local economy.

Donations can be accepted and managed through local community support groups, or wider state bodies depending on the scale of the situation.g Lord Mayors Disaster Relief Fund, Blaze Aid etc.

Community support in the aspect of volunteering comes to life during and after an emergency sitatuation. The Shire acknowledges that this support is essential to a smooth and effective recovery. Volunteers will be supported and assisted with coordination where possible to achieve the best outcomes for the community and those impacted.

4.25 MANAGING DONATIONS

Information regarding the management of public fundraising and donations, volunteering and emergency management funding (WANDRRA) is found in Part Five of the State EM Recovery Procedures.

5 RECOVERY

Please refer to the Shire of Lake Grace Local Recovery Management Plan which is a separate sub plan of these Arrangements.

5.1 LOCAL GOVERNMENT RECOVERY RESPONSIBILITIES

- Accept and approve an Impact Statement for the emergency from the Controlling Agency, in conjunction with the State Recovery Coordinator.
- Nominate a local recovery coordinator, with more than one person appointed and trained.
- Lead and manage the community recovery process through the Local Recovery Coordination Group in concert with other agencies identified in the local recovery plan.
- Develop an operational recovery plan, in conjunction with the Local Recovery Coordination Group.

6 PART 7 - EXERCISING & REVIEWING

6.1 EXERCISING

6.1.1 **AIM**

Testing and exercising are essential to ensure that the emergency management arrangements are workable and effective for the LEMC. The testing and exercising is also important to ensure that individuals and organisations remain appropriately aware of what is required of them during an emergency response situation.

The exercising of a HMA's response to an incident is a HMA responsibility however it could be incorporated into the LEMC exercise.

Exercising the emergency management arrangements will allow the LEMC to:

- Test the effectiveness of the local arrangements
- Bring together members of emergency management agencies and give them knowledge of, and confidence in, their roles and responsibilities
- Help educate the community about local arrangements and programs
- Allow participating agencies an opportunity to test their operational procedures and skills in simulated emergency conditions
- Test the ability of separate agencies to work together on common tasks, and to assess effectiveness of co-ordination between them.

6.1.2 FREQUENCY

State Emergency Management Policy (SEMP) section 4.8 requires all local governments and LEMCs to exercise local level arrangements annually and to share information on planned exercises with the DEMC.

6.1.3 **TYPES**

Some examples of exercises types include:

- a) Desktop/Discussion
- b) A phone tree recall exercise
- c) Opening and closing procedures for evacuation centres or any facilities that might be operating in an emergency
- d) Operating procedures of an Emergency Coordination Centre
- e) Locating and activating resources on the Emergency Resources Register

6.1.4 REPORTING OF EXERCISES

State EM Policy s4.11 provides LEMCs must provide a copy of their post exercise report to the DEMC Chair for referral to the SEMC for noting in their annual report. The exercise documentation and reporting should be consistent with State EM Preparedness Procedure 19: Exercise Management.

6.2 REVIEW

The Local Emergency Management Arrangements (LEMA) shall be reviewed and amended in accordance with State EM Preparedness Procedures 8 – Local Emergency Management Arrangements and replaced whenever the local government considers it appropriate (S.42 of the EM Act).

The local government must ensure the review of the LEMA on the following basis:

- a) Contact lists are reviewed and updated quarterly;
- b) After an event or incident requiring the activation of an Incident Support Group or after an incident requiring significant recovery co-ordination;
- c) every five years; and
- d) whenever the local government considers it appropriate.
- e) If a major review takes place, a full approval process is required. If the amendments
- f) are minor, the local government is to make the amendments and ensure that these are distributed to members of its LEMC, the DEMC and the Office of Emergency Management.

7 Appendices

7.1 Appendix 1 - Agency Responsibilities by Hazard

The following table lists the emergencies that are likely to occur within the Shire of Lake Grace (in alphabetical order) and the agencies responsible:

	Hazard	Hazard Management Agency	Organisation / Controlling Agency	Local Combat	Local Support
1	Air Crash	Commissioner of Police	WA Police Force	Lake Grace VFRS	St John WA
2	Animal or plant: pests or diseases	Agriculture Director General	Department of Primary Industries and Regional Development	DPIRD Narrogin	
3	Injury or threat to life of persons trapped by the collapse of a structure or landform (collapse)	Fire and Emergency Services Commissioner	Department of Fire and Emergency Services (DFES)		SES (Wagin/ Gnowangerup)
4	Cyclone	Fire and Emergency Services Commissioner	DFES		SES (Wagin/ Gnowangerup)
5	Earthquake	Fire and Emergency Services Commissioner	DFES		SES (Wagin/ Gnowangerup)
6	Loss of or interruption to the supply of electricity that is capable of causing or resulting in loss of life, prejudice to the safety, or harm to the health, of a person (electricity supply disruption)	Coordinator of Energy	Energy Policy WA (Note: Infrastructure Operators are considered the Controlling Agencies for physical restoration of supply.)	Western Power	

7	Fire	Fire and Emergency Services Commissioner	 DFES within gazetted fire districts or where DFES brigade or unit established; Department of Biosecurity, Conservation and Attractions (DBCA) on land it manages outside gazetted fire districts; and Local government in local government districts outside of gazetted fire districts and DBCA land. 	Shire of Lake Grace (BFS) Lake Grace VFRS	Neighbouring Shires BFS DFES VFRS, VFES DFES Regional Office
8	Flood	Fire and Emergency Services Commissioner	DFES		SES (Wagin/ Gnowangerup)
10	Actual or impending spillage, release or escape of a biological substance that is capable of causing loss of life, injury to a person or damage to the health of a person, property or the environment.	Chief Executive Officer, Department of Health	Department of Health	Lake Grace Health Service (WACHS)	
11/ 12/ 13	Actual or impending spillage, release or escape of a (a) chemical, (b) radiological or (c) other substance (HAZMAT) that is capable of causing loss of life, injury to a person or damage to the health of a	Fire and Emergency Services Commissioner	DFES	Lake Grace VFRS	Shire of Lake Grace

	person, property or the environment				
14	Heatwave	Chief Executive Officer, Department of Health	Department of Health	Lake Grace Health Service (WACHS)	St John WA
15	Hostile Act	Commissioner of Police	WA Police Force		
16	Human Epidemic	Chief Executive Officer, Department of Health	Department of Health	Lake Grace Health Service (WACHS)	St John WA
17	Land Search – for persons lost or in distress, that requires a significant coordination of search operations	Commissioner of Police	WA Police Force		SES (Wagin/ Gnowangerup)
23	Rail Crash	PTA Network - Public Transport Authority (PTA)	 PTA; or WA Police Force or DFES, by agreement, following the declaration of an emergency situation or state of emergency or circumstance where the demands of the situation are deemed to exceed the capacity or capability of the PTA. 	WA Police Force Lake Grace VFRS	DFES
		Arc Infrastructure Pty Ltd	 Arc Infrastructure Pty Ltd; or WA Police Force or DFES, by agreement, following the declaration of an emergency situation or state of emergency or circumstance where the demands of the situation are deemed to exceed 	WA Police Force Lake Grace VFRS	DFES

			the capacity or capability of Arc Infrastructure.		
24	Road Crash	Commissioner of Police	WA Police Force	Lake Grace VFRS	DFES
25	Space Re-entry Debris	Commissioner of Police		Lake Grace VFRS Shire of Lake Grace BFS	SES (Wagin/ Gnowangerup)
26	Storm	Fire and Emergency Services Commissioner	DFES		SES (Wagin/ Gnowangerup)
27	Terrorist Act	Commissioner of Police	WA Police Force		

7.1.1Support Plans

There is a range of support functions and services that are not hazard specific but support EM arrangements across all-hazards, for example, emergency public information, welfare and health support. These services may be required regardless of the type of hazard that occurs.

Support Function	Responsible Agency	Local Support	State Support Plan
Emergency Welfare	Department of Communities		Emergency Welfare (Interim)
Emergency Public Information	DFES		Emergency Public Information (SSP – Public Information)
Animal Welfare in Emergencies	DPIRD		Animal Welfare in Emergencies

7.2 Appendix 2 – State Hazard Plans – Local Government Responsibilities (for emergencies likely to impact LGA)

The State Hazard Plans detail the responsibilities of local government under each plan. The following is a summary only. For details, please refer to the <u>SEMC website State Hazard Plans</u>.

7.2.1 Animal and Plant Biosecurity

- Provide Liaison Officer/s and other trained staff as required and appropriate.
- Provide and/or assist in the acquisition of resources and engineering services including earth moving machinery and operators.
- Provide information on local legislation, conditions and hazards, environmental and water issues associated with waste disposal.
- Assistance with quarantine and movement control as required.
- Assist with local communication.
- Identify and/or make available suitable facilities for use as Control Centres.
- Management of the local recovery process.

7.2.2 Westplan - Collapse

To assist the HMA at collapse emergencies with advice and resources to deal with the emergency and coordination of community recovery at a local level.

- Provide liaison officer with DFES;
- Act in accordance with the Local Emergency Management Arrangements in support of DFES;
- Provide advice on Local Authority drains, water and sewerage systems;
- Provide resources support;
- Provide advice by making the local Environmental Health Officer and Engineer available for collapse emergencies;
- Provide a written report and/or participate in post operation debriefs on the emergency, as may be required, by the HMA;
- Ensure management of risks process is applied to collapse in accordance with State EM Policy Section 3.2 and State EM Prevention Procedure 1
- Provide Recovery Coordinator to coordinate long term community recovery, in accordance with the Local Recovery Plan, as required; and
- Assist with the long term clean up, when required.

7.2.3 Crash Emergency

- Assist the HMA/Controlling Agency in determining traffic management requirements.
- Assist in the provision of resources for traffic management for local roads.
- Manage the community recovery process, if required.
- Undertake community recovery activities, as required

7.2.4 Westplan - Earthquake

- Participate in community awareness programs on earthquake risks.
- Provide resources to assist DFES when requested.

- Make available suitable local government buildings to be used as welfare centres.
- Issue closure notices for airports and airfields when necessary.
- Close and open roads within their jurisdiction, when requested by DFES.
- Provide details on road conditions to DFES.
- Initiate and lead the local community through the recovery process.
- Inspect and declare earthquake affected properties fit for habitation

7.2.5 State Hazard Plan – Energy Supply Disruption

- Participate in community awareness programs on energy supply disruption risks.
- Assist in communicating messages to the public during an energy supply disruption emergency.
- Provide resources to assist Energy Policy WA when requested.
- In consultation with the Department of Communities, identify venues that may be used as evacuation centres.
- Close and open roads within their jurisdiction, when requested by Energy Policy WA.
- Provide details on road condition to Energy Policy WA.
- Undertake recovery activities, as required.
- Assist in the identification and support of at-risk communities.
- Provide a representative to the OASG, if required.

7.2.6 Westplan - Flood

- Provide an appropriate representative on the Flood Warning Consultative Committee (FWCC).
- Provide resources to assist DFES when requested.
- Make available suitable local government buildings to be used as evacuation shelters.
- Issue closure notices for airports and airfields when necessary.
- Close and open roads within their jurisdiction, when requested by the appropriate authority.
- Provide details on road conditions to DFES.
- Lead the community recovery process.
- Participate in improving flood warning systems to communities (as required).
- Inspect flood affected properties and ascertain fitness for habitation.

7.2.7 State Hazard Plan – Fire

- Response to all bushfires on lands including UMR and UCL outside:
 - Gazetted Fire Districts declared under the FB Act or where a Fire and Emergency Service brigade is established under the FES Act;
 - Those areas where PWS has jurisdictional responsibility, and the Perth metropolitan area; and
- Provide equipment and personnel to DFES and/or PWS where they have the operational capacity to do so.
- Assume the role of Controlling Agency where required in accordance with this plan;

- Where appropriate and resources permit, participate in State Bushfire Pre-Formed Incident Management Teams in accordance with agreed management guidelines and business rules.
- • Where LG is in control of the incident they should:
 - Nominate an IC
 - Maintain control of defined area of operations.
 - Determine the requirement for evacuation or shelter-in-place, and implement as necessary;
 - Request, task and coordinate assistance from participating combat and supporting agencies (i.e. DFES);
 - Maintain a record of activities;
 - Ensure the preparation and approval of media releases;
 - Arrange participant debriefing immediately following an emergency;
 - If required, conduct post incident analysis and/or a post operation report in accordance with State EM Policy section 5.11 and State EM Plan section 5.7; and
 - Assist the WA Police Force and other relevant agencies [e.g. Department of Mines, Industry Regulation and Safety (Dangerous Goods Branch and Worksafe)] in determining the origin and cause of the fire.

7.2.8 State Hazard Plan – Heatwave

- Assist in communicating messages to the public:
 - o before a heatwave, to assist the development of community resilience; and
 - o during a heatwave emergency to protect the community.
- In consultation with Department of Communities, identify venues that can be utilised as welfare facilities for at risk populations in the community (e.g. local libraries, community recreation facilities, respite areas).
- Provide resources to assist the WA health system when requested.
- Undertake community recovery activities, as required.
- Participate in ISG, OASG and SECG meetings as requested.
- Provide a liaison officer to the State Health Incident Coordination Centre (SHICC) if required.

7.2.9 State Hazard Plan – Hazardous Materials Emergencies (HAZMAT)

- To ensure recovery from HAZMAT emergencies.
- To assist at HAZMAT emergencies, with advice and resources.
- The capability and commitment of each LG to undertake the tasks and meet the responsibilities identified in the State EM Plan should be confirmed by the HMA and detailed in the Local Emergency Management Plan (LEMP). This will ensure the varying capabilities of individual LG's are recognised and agreed to by all parties.

7.2.10 State Hazard Plan – Human Biosecurity

- Provide Environmental Health Officers to Metropolitan and Regional Human Epidemic Coordination Centre (HECCs), as required.
- Assist with the investigation of human epidemics.
- Assist with monitoring of food safety.

- Assist with the safe disposal of contaminated waste.
- Assist with the control of vermin or insect infestations.
- Provide support with other local resources as requested by the HMA or local State, Metropolitan or Regional HECCs.
- The capability and commitment of each Local Government to undertake the tasks and meet the responsibilities identified in the State EM Plan should be confirmed by the HMA and detailed in the Local Emergency Management Arrangements (LEMA). This will ensure the varying capabilities of individual Local Governments are recognised and agreed to by all parties.

7.2.11 State Hazard Plan - Search and Rescue Emergency

• Provide advice based on local knowledge and other support on request.

7.2.12 Westplan - Storm

- Participate in community awareness programs on storm risks.
- Provide resources to assist DFES when requested.
- Make available suitable local government buildings to be used as welfare shelters.
- Issue closure notices for airports and airfields when necessary.
- Close and open roads within their jurisdiction, when requested by DFES.
- Provide details on road conditions to DFES.
- Initiate and lead the local community through the recovery process.
- Inspect and declare storm affected properties fit for habitation.

7.3 Appendix 3 – State Support Plans - Local Government Responsibilities

The State Hazard Plans detail the responsibilities of local government under each plan. The following is a summary only. For details, please refer to the <u>SEMC website State Support Plans</u>.

7.3.1 State Support Plan – Emergency Welfare (Interim)

- provide the initial welfare response to evacuating community members;
- identify and open a pre-determined welfare centre to ensure that evacuees have a safe location to which to relocate;
- provide basic needs and services (may include refreshments, registration, basic information, and personal support) until Department of Communities can arrive to take on the coordination role of the welfare centre;
- provide a handover to the designated Communities Welfare Coordinator; and
- take on the LG Welfare Liaison Officer role as a support to Communities.

7.3.2 State Support Plan – Public Information

- Where required, provide an appropriate representative for Public Information Team meetings.
- Undertake community recovery activities, including public information activities, as required.

7.3.3 State Support Plan – Animal Welfare in Emergencies

- Activate the Local Government emergency animal welfare plan or contingency arrangements where identified within LEMA; and
- Liaise with DPIRD to provide a coordinated approach to animal welfare response actions, where relevant.

7.4 Appendix 4 - Local EM Plans & Policies

The following plans and policies are related to and should be read in conjunction with this document:

7.8.3 Review Of Resources Register

The Executive Officer shall have the resources register checked and updated on an annual basis, but ongoing amendments may occur at any LEMC meeting or as information comes to hand.

7.9 Appendix 9 - Pre-Event Evacuation Planning

7.9.1 At Risk Persons

Please see **Appendix 7 - Special Considerations** for details of those persons who may need special consideration during an evacuation.

7.9.2 High Risk Settlements

The following settlements may be exposed to high level of emergency risk within the local government district.

Area/Settlement	Hazard	Description
Lake Grace	Flood	Community may be isolated in major flood event. Major road connections have low-lying flood ways.
	Fire	Community may be isolated in a major bush fire event. Bush fires ofter also impact services such as power and water. Extended power outages can impact sanitation and communications.
Newdegate	Flood	Community may be isolated in major flood event. Major road connections have low-lying flood ways.
	Fire	Community may be isolated in a major bush fire event. Bush fires ofter also impact services such as power and water. Extended power outages can impact sanitation and communications.
Lake King	Flood	Community may be isolated in major flood event. Major road connections have low-lying flood ways.
	Fire	Community may be isolated in a major bush fire event. Bush fires ofter also impact services such as power and water. Extended power outages can impact communications and fuel supply.
Varley	Flood	Community may be isolated in major flood event. Major road connections have low-lying flood ways.
	Fire	Community may be isolated in a major bush fire event. Bush fires ofter also impact services such as power and water. Extended power outages can impact communications.

7.9.3 Identification of Welfare Centres

Please see Appendix 11 – Welfare Centres, for details of the locations of available welfare centres and the facilities available at each centre.

7.9.4 Isolation and Quarantine

For issues regarding isolation and quarantine at Welfare Centres, the current Department of Communities advice will be adhered to, where possible.

7.9.5 Resources

For resources, including for transport, please refer to **Appendix 8 – Resource Register**.

7.9.6 Traffic Considerations

The Shire may develop plans to assist with evacuation planning that consider:

- any pinch points such as, one road in-one road out;
- load limits on bridges;
- suitable access/egress routes for the expected type/volume of traffic, including alternatives by or air when suitable roads are inaccessible, insufficient or inappropriate;
- possible locations for vehicle control points to assist with traffic management (i.e. where traffic can be easily re-routed, and communications should be reliable).

7.9.7 Major Events

Please refer to **Appendix 7 – Special Considerations** for details of special events or seasonal activities that may impact on availability of resources, volunteers or the number of people in a township during an emergency event.

7.9.8 Animals

The owner or carer of an animal is responsible for the safety and welfare their animal(s) at all times, including during emergency events.

There are no commercial animal boarding facilities available in the shire. The Council Dog Pounds are not suitable to hold dogs in an emergency.

Refer to **Appendix 11 – Welfare Centres** for information about facilities for animals at Welfare Centres.

7.10 Appendix 10 - Operational Evacuation Plan Planning

7.10.1 Emergency Evacuation Planning Map

An online mapping system, such as FESMaps (DFES) will generally be used by the IC or delegate to plan evacuations.

Refer also to Appendix 7.15 – Maps of District.

7.10.2 **Operational Evacuation Plan Template**

Under the *Emergency Management Act 2005*, for a recommended evacuation, developing an evacuation plan or undertaking activities to support the plan, will generally be completed by the Incident Controller (appointed by the Controlling Agency). In the case of a directed evacuation, this will generally be completed by the Hazard Management Officer (authorised by the HMA) or Authorised Officer (authorised by the SEC).

This template on the following pages can be used to develop a plan or document decisions and strategies from another agency where time permits – or as an aide-memoire where needs to be taken urgently.

The template is also available for download on the <u>SEMC website</u>.

7.11 Appendix 11 - Welfare Centres

7.11.1 Lake Grace Sports Pavilion

Lake Grace Sports Pavilion			
Address	Bishop St	i, Lake G	Grace
	The Lake	Grace S	Sports Precinct has good access and ample parking.
	This modern building consists of a large room with toilets, including disabled access, and kitchen facilities.		
	Low flood and bush fire risk location.

7.15 Appendix 15 – Glossary Of Terms

For additional information in regards to the Glossary of Terms, refer to the Emergency Management Western Australia Glossary 2009

AUSTRALASIAN INTERSERVICE INCIDENT MANAGEMENT SYSTEM (AIIMS) – A nationally adopted structure to formalise a coordinated approach to emergency incident management

AIIMS STRUCTURE – The combination of facilities, equipment, personnel, procedures and communications operating within a common organisational structure with responsibility for the management of allocated resources to effectively accomplish stated objectives relating to an incident (AIIMS)

AWEG - Animal Welfare Emergency Group is a multi-organisation liaison group formed to assist DPIRD in coordinating animal welfare services during an emergency. It consists of organisations from the CAWE, and other organisations or agencies DPIRD deems relevant for animal welfare services in an emergency.

BFB – Bush Fire Brigade, established by a local government under the Bush Fires Act 1954.

BIOSECURITY - the management of the risk of animal and plant pests and diseases entering, emerging, establishing or spreading in Western Australia, to protect our economy, environment and the community.

CAWE – Committee for Animal Welfare in Emergencies, established by DPIRD to collaborate on how the animal welfare considerations outlined in the *State Support Plan – Animal Welfare* can be practically implemented into emergency management throughout the WA.

COMBAT -Take steps to eliminate or reduce the effects of a hazard on the community.

COMBAT AGENCIES - A combat agency as prescribed under subsection (1) of the *Emergency Management Act 2005* is to be a public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for performing an emergency management activity prescribed by the regulations in relation to that agency (*EMWA Glossary Version:2011*)

COMPREHENSIVE APPROACH – The development of emergency and disaster arrangements to embrace the aspects of prevention, preparedness, response, and recovery (PPRR). PPRR are aspects of emergency management, not sequential phases. *Syn.* 'disaster cycle', 'disaster phases' and 'PPRR'

COMMAND – The direction of members and resources of an organisation in the performance of the organisation's role and tasks. Authority to command is established in legislation or by agreement with an organisation. Command relates to organisations and operates vertically within an organisation. *See also* **COMMAND and COORDINATION.**

CONTROL – The overall direction of emergency management activities in an emergency situation. Authority for control is established in legislation or in an emergency plan, and carries with it the responsibility for tasking and coordinating other organisations in accordance with the needs of the situation. Control relates to situations and operates horizontally across organisations. *See also* **COMMAND and COORDINATION.**

CONTROLLING AGENCY – A Controlling Agency is an agency nominated to control the response activities to a specified type of emergency.

COORDINATION – The bringing together of organisations and elements to ensure an effective response, primarily concerned with the systematic acquisition and application of resources (organisation, manpower and equipment) in accordance with the requirements imposed by the

threat or impact of an emergency. Coordination relates primarily to resources, and operates, vertically, within an organisation, as a function of the authority to command, and horizontally, across organisations, as a function of the authority to control. *See also* **CONTROL and COMMAND.**

DFES – Department of Fire & Emergency Services, WA

DISTRICT – Means the municipality of the Shire of Lake Grace

EMERGENCY the occurrence or imminent occurrence of a hazard which is of such a nature or magnitude that it requires a significant and coordinated response.

EMERGENCY MANAGEMENT – The management of the adverse effects of an emergency including:

- a) Prevention the mitigation or prevention of the probability of the occurrence of and the potential adverse effects of an emergency.
- b) Preparedness preparation for response to an emergency.
- c) Response the combating of the effects of an emergency, provision of emergency assistance for casualties, reduction of further damage and help to speed recovery.
- d) Recovery the support of emergency affected communities in the reconstruction and restoration of physical infrastructure, the environment and community, psychosocial and economic wellbeing.

EMERGENCY MANAGEMENT AGENCY – A hazard management agency (HMA), a combat agency or a support organisation

EMERGENCY RISK MANAGEMENT – A systematic process that produces a range of measures which contribute to the well-being of communities and the environment.

HAZARD

- a) cyclone, earthquake, flood, storm, tsunami or other natural event;
- b) a fire;
- c) a road, rail or air crash;
- d) a plague or an epidemic;
- e) a terrorist act as defined in The Criminal Code section 100.1 set out in the Schedule to the Criminal Code Act 1995 of the Commonwealth;
- f) any other event, situation or condition that is capable of causing or resulting in:
 - i. loss of life, prejudice to the safety, or harm to the health, of persons or animals; or
 - ii. destruction of, or damage to, property or any part of the environment, and is prescribed by the regulations;

HAZARD MANAGEMENT AGENCY (HMA) – A hazard management agency is 'to be a public authority or other person who or which, because of that agency's functions under any written law or specialised knowledge, expertise and resources, is responsible for emergency management, or the prescribed emergency management aspect, in the area prescribed of the hazard for which it is prescribed.' [EM Act 2005 s4]

The HMA's are prescribed in the Emergency Management Regulations 2006. Their function is to:

- Undertake responsibilities where prescribed for these aspects [EM Regulations]
- Appointment of Hazard Management Officers [s55 Act]
- Declare / Revoke Emergency Situation [s 50 & 53 Act]

- Coordinate the development of the State Hazard Plan for that hazard [SEMP 2.2]
- Ensure effective transition to recovery by Local Government

INCIDENT the occurrence or imminent occurrence of a hazard.

INCIDENT AREA (IA) – The area defined by the Incident Controller for which they have responsibility for the overall management and control of an incident.

INCIDENT CONTROLLER – The person appointed by the Hazard Management Agency for the overall management of an incident within a designated incident area

INCIDENT MANAGEMENT TEAM (IMT) – A group of incident management personnel comprising the incident controller, and the personnel he or she appoints to be responsible for the functions under the AIIMS Structure. The team headed by the incident controller which is responsible for the overall control of the incident.

INCIDENT SUPPORT GROUP (ISG) – A group of agency/organisation liaison officers convened and chaired by the Incident Controller to provide agency specific expert advice and support in relation to operational response to the incident.

LG – Local Government meaning the Shire of Lake Grace & Shire of Lake Grace Council.

LIFELINES – The public facilities and systems that provide basic life support services such as water, energy, sanitation, communications and transportation. Systems or networks that provide services on which the well-being of the community depends

LOCAL EMERGENCY COORDINATOR (LEC) - That person designated by the Commissioner of Police to be the Local Emergency Coordinator with responsibility for ensuring that the roles and functions of the respective Local Emergency Management Committee are performed, and assisting the Hazard Management Agency in the provision of a coordinated multi-agency response during *Incidents* and *Operations*.

LOCAL EMERGENCY MANAGEMENT COMMITTEE (LEMC) – The Shire of Lake Grace has established a Local Emergency Management Committee (LEMC) under section 38(1) of the Emergency Management Act 2005 to oversee, plan and test the local emergency management arrangements.

The LEMC includes representatives from agencies, organisations and community groups that are relevant to the identified risks and emergency management arrangements for the community.

The LEMC is not an operational committee but rather the organisation established by the local government to ensure that local emergency management arrangements are written and placed into effect for its district.

The LEMC membership must include at least one local government representative and the identified Local Emergency Coordinator (LEC). Relevant government agencies and other statutory authorities will nominate their representatives to be members of the LEMC.

The term of appointment of LEMC members shall be determined by the local government in consultation with the parent organisation of the members.

MUNICIPALITY – Means the district of the Shire of Lake Grace.

OPERATIONS – The direction, supervision and implementation of tactics in accordance with the Incident Action Plan. *See* **also EMERGENCY OPERATION.**

OPERATIONAL AREA (OA) – The area defined by the Operational Area Manager for which they

have overall responsibility for the strategic management of an emergency. This area may include one or more Incident Areas.

PREPAREDNESS – Arrangements to ensure that, should an emergency occur, all those resources and services which are needed to cope with the effects can be efficiently mobilised and deployed. Measures to ensure that, should an emergency occur, communities, resources and services are capable of coping with the effects. *See also* **COMPREHENSIVE APPROACH.**

PREVENTION – Regulatory and physical measures to ensure that emergencies are prevented, or their effects mitigated. Measures to eliminate or reduce the incidence or severity of emergencies. *See also* **COMPREHENSIVE APPROACH.**

PUBLIC AUTHORITIES - A public Authority is established under section 3 of the Act. Under s35 the SEMC may specify (s35(6) both an area of the State and a public authority to exercise the functions of local government detailed under section 36 of the Act To date, the Rottnest Island Authority is the only agency that has been classed as a 'public authority'.

RECOVERY – The coordinated process of supporting emergency-affected communities in reconstruction of the physical infrastructure and restoration of emotional, social, economic and physical well-being.

RESPONSE – Actions taken in anticipation of, during, and immediately after an emergency to ensure that its effects are minimised and that people affected are given immediate relief and support. Measures taken in anticipation of, during and immediately after an emergency to ensure its effects are minimised. *See also* **COMPREHENSIVE APPROACH.**

RISK – A concept used to describe the likelihood of harmful consequences arising from the interaction of hazards, communities and the environment.

The chance of something happening that will have an impact upon objectives. It is measured in terms of consequences and likelihood.

A measure of harm, taking into account the consequences of an event and its likelihood, for example, it may be expressed as the likelihood of death to an exposed individual over a given period

Expected losses (of lives, persons injured, property damaged, and economic activity disrupted) due to a particular hazard for a given area and reference period. Based on mathematical calculations, risk is the product of hazard and vulnerability

RISK MANAGEMENT – The systematic application of management policies, procedures and practices to the tasks of identifying, analysing, evaluating, treating and monitoring risk

RISK REGISTER – A register of the risks within the local government, identified through the Community Emergency Risk Management process.

RISK STATEMENT – A statement identifying the hazard, element at risk and source of risk

SES – State Emergency Service

SUPPORT ORGANISATION – A Public authority or other person who or which, because of the agency's functions under any written law or specialised knowledge, expertise and resources is responsible for providing support functions in relation to that agency. (EMWA Glossary Version: 2011)

TELECOMMUNICATIONS – The transmission of information by electrical or electromagnetic

means including, but not restricted to, fixed telephones, mobile phones, satellite phones, e-mail and radio.

TREATMENT OPTIONS – A range of options identified through the emergency risk management process, to select appropriate strategies' which minimise the potential harm to the community.

VFRS – Volunteer Fire & Rescue Service

VMR – Volunteer Marine Rescue

VULNERABILITY – The degree of susceptibility and resilience of the community and environment to hazards. The degree of loss to a given element at risk or set of such elements resulting from the occurrence of a phenomenon of a given magnitude and expressed on a scale of 0 (no damage) to 1 (total loss)

WELFARE CENTRE – Location where temporary accommodation is actually available for emergency affected persons containing the usual amenities necessary for living and other welfare services as appropriate.

KEY INFORMATION

▲ ▼ Indicates a variance between Year to Date (YTD) Actual and YTD Actual data as per the adopted materiality threshold.

Refer to Note 16 for an explanation of the reasons for the variance.

The material variance adopted by Council for the 2021-22 year is \$5,000 or 10.00% whichever is the greater.

This statement is to be read in conjunction with the accompanying Financial Statements and notes.

KEY TERMS AND DESCRIPTIONS FOR THE PERIOD ENDED 31 MARCH 2022

REVENUE

RATES

All rates levied under the *Local Government Act 1995*. Includes general, differential, specified area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts and concessions offered. Exclude administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Refers to all amounts received as grants, subsidies and contributions that are not non-operating grants.

NON-OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Amounts received specifically for the acquisition, construction of new or the upgrading of identifiable non financial assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

REVENUE FROM CONTRACTS WITH CUSTOMERS

Revenue from contracts with customers is recognised when the local government satisfies its performance obligations under the contract.

FEES AND CHARGES

Revenues (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees. Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, other fees and charges.

SERVICE CHARGES

Service charges imposed under *Division 6 of Part 6 of the Local Government Act 1995. Regulation 54 of the Local Government (Financial Management) Regulations 1996* identifies these as television and radio broadcasting, underground electricity and neighbourhood surveillance services. Exclude rubbish removal charges. Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

INTEREST EARNINGS

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

OTHER REVENUE / INCOME

Other revenue, which can not be classified under the above headings, includes dividends, discounts, rebates etc.

PROFIT ON ASSET DISPOSAL

Excess of assets received over the net book value for assets on their disposal.

NATURE OR TYPE DESCRIPTIONS

EXPENSES

EMPLOYEE COSTS

All costs associate with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefit tax, etc.

MATERIALS AND CONTRACTS

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc. Local governments may wish to disclose more detail such as contract services, consultancy, information technology, rental or lease expenditures.

UTILITIES (GAS, ELECTRICITY, WATER, ETC.)

Expenditures made to the respective agencies for the provision of power, gas or water. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

INSURANCE

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

LOSS ON ASSET DISPOSAL

Shortfall between the value of assets received over the net book value for assets on their disposal.

DEPRECIATION ON NON-CURRENT ASSETS

Depreciation expense raised on all classes of assets.

INTEREST EXPENSES

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

OTHER EXPENDITURE

Statutory fees, taxes, allowance for impairment of assets, member's fees or State taxes. Donations and subsidies made to community groups.

KEY INFORMATION

▲▼ Indicates a variance between Year to Date (YTD) Actual and YTD Actual data as per the adopted materiality threshold.

Refer to Note 16 for an explanation of the reasons for the variance.

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

MONTHLY FINANCIAL REPORT FOR THE PERIOD ENDED 31 MARCH 2022

BASIS OF PREPARATION

BASIS OF PREPARATION

The financial report has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and notfor-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14 to these financial statements.

SIGNIFICANT ACCOUNTING POLICES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 31 March 2021

NOTE 1 STATEMENT OF FINANCIAL ACTIVITY INFORMATION

- -----

(a) Non-cash items excluded from operating activities

The following non-cash revenue and expenditure has been excluded from operating activities within the Statement of Financial Activity in accordance with Financial Management Regulation 32.

Non-cash items excluded from operating activities	Notes	Adopted Budget	YTD Budget (a)	YTD Actual (b)
		\$	\$	\$
Adjustments to operating activities				
Less: Profit on asset disposals	7	(25,212)	0	0

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

OPERATING ACTIVITIES NOTE 2 CASH AND FINANCIAL ASSETS

		3,829,852	7,508,670	11,338,522	10,475	I Contraction of the second		

KEY INFORMATION

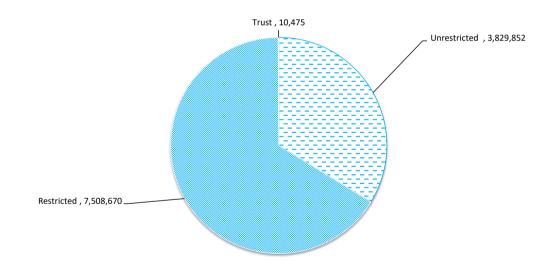

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and

- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

Total receivables general outstanding

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for impairment of receivables is raised when there is objective evidence that they will not be collectible.

Accounts Receivable (non-rates)

OPERATING ACTIVITIES NOTE 4 OTHER CURRENT ASSETS

Other surrent essets	Opening Balance	Asset Increase	Asset Reduction	Closing Balance
Other current assets	1 July 2021 \$	¢	\$	31 March 2022 \$
Inventory	Ŷ	Ŷ	Ŷ	Ŷ
Stock on Hand	15,745	5,295		21,040

Total other current assets	81,729	5,295	(65,984)	21,040
Amounts shown above include GST (where applicable)				

KEY INFORMATION

Inventory

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

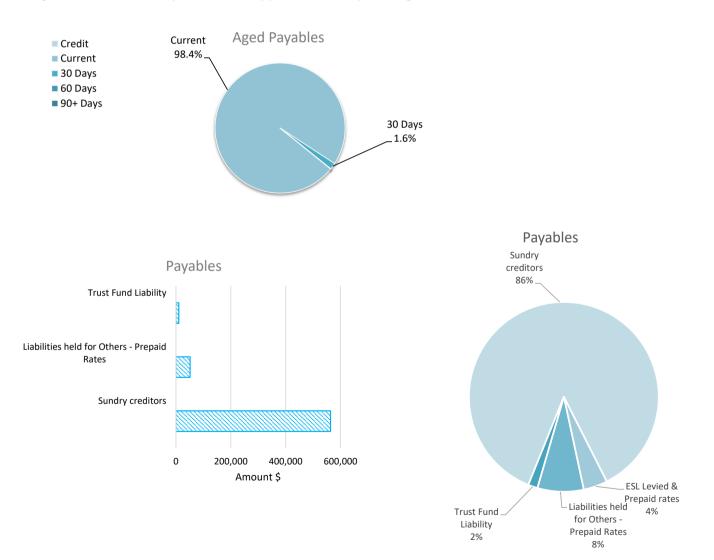

OPERATING ACTIVITIES NOTE 5 Payables

Payables - general	Credit		Current	30 Days	60 Days	90+ Days	Total
	\$		\$	\$	\$	\$	\$

Balance per trial balance							
Sundry creditors		0	554,123	8,707	82	281	563,194
ESL Levied & Prepaid rates			26,692				26,692
Liabilities held for Others - Prepaid Rates			51,352				51,352
Trust Fund Liability			10,475				10,475
Total payables general outstanding							651,713

Amounts shown above include GST (where applicable)

KEY INFORMATION

Trade and other payables represent liabilities for goods and services provided to the Shire that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

Total							4,553,964				4,607,482

KEY INFORMATION

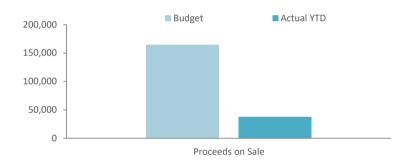

Prepaid rates are, until the taxable event for the rates has occurred, refundable at the request of the ratepayer. Rates received in advance give rise to a financial liability. On 1 July 2020 the prepaid rates were recognised as a financial asset and a related amount was recognised as a financial liability and no income was recognised. When the taxable event occurs the financial liability is extinguished and income recognised for the prepaid rates that have not been refunded.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

All debenture repayments were financed by general purpose revenue.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

2022 SPONSORSHIP AGREEMENT

between Newdegate Machinery Field Days Inc.

and

Shire of Lake Grace

Major sponsorship of \$2,500 (plus GST) which includes \$1,500 for the Art Acquisition Prize. Works component sponsorship of \$12,500. Total sponsorship \$15,000.

I hereby acknowledge that the following opportunities have been negotiated between the **Shire of Lake Grace** and **Newdegate Machinery Field Days Inc.** for the 2019 Newdegate Machinery Field Days ("2022 Field Days"):

General

- The Shire of Lake Grace agrees to continue as a "Major Sponsor" of the 2022 Field Days to the amount of \$12,500 (plus GST). Of this cash component, \$1,500 is for the Shire of Lake Grace Acquisition Prize, in the Art Exhibition and Competition.
- 2. The Shire of Lake Grace shall provide the contracted rubbish removal as per directives on attached "Rubbish Collection Arrangement"
- 3. The Shire of Lake Grace shall provide the water truck to damp down the laneways from Tuesday afternoon to Thursday afternoon (weather depending).
- 4. The Shire of Lake Grace shall provide the necessary maintenance required to gardens, entry statements, the airstrip, the Field Days site and any other town facilities in the lead up to the 2022 Field Days, to ensure they are in the best possible condition for the event.
- 5. The Field Days Committee will utilise the Shire of Lake Grace's **SMS Messaging service** to contact committee members advising them of monthly or special meetings.

PO Box 130 Newdegate WA 6355

ABN: 46 951 871 791 Newdegatemachineryfielddays.com

- 6. The Shire of Lake Grace to have a direct link to the Field Days website from the Shire of Lake Grace webpage.
- 7. The sponsorship term will be from 1 July 2022 until 30 June 2023, inclusive ("Sponsorship Term").

Relationship Development

8. The Shire of Lake Grace has the opportunity to continue the sponsorship for future field days.

Hospitality

9. A representative from the Shire to be invited to officiate at prize presentation functions or official opening where applicable.

Product Display, PR and Publicity

- The Shire of Lake Grace to arrange booking and payment for Billboard advertising with WA Billboards, on a single side of the Billboard located at the southern entrance to Newdegate, from the period of August – September 2022.
- 11. The Shire of Lake Grace will receive **Site 36** in the Family Interest Display Pavilion (6m x 3m) with a 20% discount of the advertised application fee.
- 12. The Shire of Lake Grace logo is to appear on advertisements (press, radio and television) and any other promotional materials organised by the Field Days.
- 13. The Shire of Lake Grace will receive logo acknowledgement on the website with a link back to the Shire of Lake Grace webpage.
- 14. The Shire of Lake Grace will receive logo acknowledgement in the Newdegate Machinery Field Days Official Program.
- 15. The Shire of Lake Grace has the opportunity to display promotional handouts, brochures and banners, where relevant, from their site in the Family Interest Display Pavilion.
- 16. The Shire of Lake Grace is to receive free announcements over the Adasound PA and 'Agrowplow 93.1FM' Radio during the Field Days. The Shire of Lake Grace is to supply a 30 second script to the Sponsorship and Promotions Officer.
- 17. The Shire of Lake Grace is welcome to discuss the possibility of media interviews and media releases to promote their support with the Sponsorship and Promotions Officer.

PO Box 130 Newdegate WA 6355

ABN: 46 951 871 791 Newdegatemachineryfielddays.com

Recipient Management of Sponsorship

- 18. A nominated representative from the Shire of Lake Grace will continually liaise with the Sponsorship and Promotions Officer of Newdegate Machinery Field Days Inc. to ensure that sponsorship benefits are met.
- 19. The Sponsorship and Promotions Coordinator will manage and deliver all the negotiated benefits.

Contributions by Sponsor

- 20. The Shire of Lake Grace will provide funding for the Newdegate Machinery Field Days for 2022 to the value of **\$2,500 (plus GST)** and works as per Numbers 2, 3, 4 and 5 in the General Section on page 1 of this 2022 Sponsorship Agreement.
- 21. Newdegate Machinery Field Days Inc. will meet all other associated costs.
- 22. Newdegate Machinery Field Days Inc. is to provide the Shire of Lake Grace with a Tax Invoice for payment.

Logo Sign Off

23. The Shire of Lake Grace logo will be the logo used on all promotion material and communications promoting the Newdegate Machinery Field Days 2022.

RUBBISH COLLECTION ARRANGEMENTS 2022

1. A Warren Blackwood Waste compactor rubbish truck shall be stationed at the Recreation Centre car park from Wednesday 7th September until Friday 9th September to receive rubbish.

2. The compactor rubbish truck shall empty all bins around the entire Field Days site on Wednesday at 7.00am and 5.00pm, on Thursday at 7.00am and 5.00pm, and on Friday at 1.00pm. If further rubbish collection is required on the Monday after Field Days, the Field Days committee will contact the Shire to arrange.

3. The compactor rubbish truck is not permitted to drive through the Field Days grounds between 8am and 5pm on Wednesday and Thursday.

4. Shire staff will be responsible for collecting full rubbish bins and ferrying them in a suitable vehicle to the compactor rubbish truck at regular intervals throughout Wednesday and Thursday as required, with a focus on all kitchen areas by 2pm. As full bins are removed, an empty bin will be substituted to maintain a consistent waste management service.

5. Shire staff to insert bin liners in bins located at the main food areas, liners to be supplied by the Field Days Committee, to minimise contamination and odour.

6. Two x 3m³ Warren Blackwood Waste recycling skip bins are supplied to the Field Days site from 8.00am on Monday 30th August until 3.00pm on Friday 3rd September (5 days); one to be located behind the Family Interest Pavilion and the other next to the Cattle display on site 166.

7. The contents of the bins in the "fireworks zone" are to be removed before 8.00am on Thursday 8th September.
