Lake Grace YAC Artwork Recognised in WALGA's Showcase in Pixels

The Lake Grace Youth Advisory Committee (YAC) has achieved an incredible milestone, with their artwork selected as one of 16 finalists for the People's Choice Award in WALGA's Showcase in Pixels art competition!

With over 300 entries submitted from across Western Australia, this recognition is a huge achievement and the YAC should be extremely proud of their creativity, teamwork, and artistic vision.

Their submission, titled "Design Our Future Lake Grace," captures both the beauty of the region and the importance of sustainability in shaping a cleaner, greener future.

Design Our Future Lake Grace

This artwork is a representation of the Salt Lake network forming the Shire of Lake Grace as can be seen from a birds-eye-view. The Youth Advisory Committee created the artwork out of recyclable materials to highlight the importance of waste management and recycling in the future.

The lake formations connect to the committee members' identity, sense of self, and connection to place, while the use of recycled materials connects to their hopes of a cleaner, greener future.

The Committee used recycled materials (bottle caps, plastic containers, rope and egg cartons) to represent the lake formations, and cardboard to represent the surrounding land. After glueing the materials to the plywood and adding a layer of tissue paper to add texture, the artwork was painted using various colours to represent different aspects of the landscape; orange (earth/dirt), yellow (farmland/crops), green (native trees/vegetation), gold (sunlight hitting the earth), blue (water), pink (colour-changing salt lakes), and silver (salt glimmering in the sunlight).
